PROFESSIONAL OBJECTIVE

Motivated Computer Science student at Al Maaref University seeking a challenging Computer Science Internship. Eager to apply robust Object-Oriented Programming (OOP) fundamentals, analytical problem-solving, and practical knowledge of modern engineering tools—including Java, Canva prototyping, and Generative AI frameworks—to add immediate value to software engineering teams.

EDUCATION

Bachelor of Science in Computer Science *Expected Graduation: July 2026*
Al Maaref University, Beirut, Lebanon
Key Coursework: Object-Oriented Programming (OOP), Software Engineering, Database Management Systems, Data Structures & Algorithms, UI/UX Design Fundamentals.

TECHNICAL SKILLS

Programming & Concepts: Java, Object-Oriented Programming (OOP), Basic Software Development Lifecycle (SDLC)

AI & Design Tools: Generative AI Tools & Workflows, Canva (UI Wireframing & Prototyping), Rapid Prototyping

Methodologies & Tools: Git & Version Control basics, UI/UX Design Fundamentals, Technical Research & Documentation, MS Office Suite

Languages: Arabic (Native), English (Very Good), French (Good)

ACADEMIC & TECHNICAL PROJECTS

Capstone Project – Autism Support System *In Progress*

- Co-developing a user-centric software solution aimed at optimizing medical and health support workflows for individuals with autism.
- Leveraging **Canva** and Generative AI frameworks to mock up interface wireframes, accelerate layout specifications, and refine rapid UI/UX structural designs.
- Coordinating closely with a multi-person team to align system functionalities with critical end-user and medical operational workflows.

Academic Software Projects *University Coursework*

- Designed and implemented multiple software initiatives utilizing **Java**, focusing on clean code architecture and standard OOP methodologies.
- Managed strict project sprints and delivery deadlines while safely steering software scope configurations under pressure.

PROFESSIONAL EXPERIENCE

Operations & Customer Support Assistant

Ongoing

Family Business Support

- Steer daily customer engagement strategies and workplace operations, maintaining clear professional feedback channels.
- Acquired operational discipline, proactive risk assessment, and cross-functional team accountability in a high-turnover business environment.

CORE COMPETENCIES & SOFT SKILLS

- | | |
|--|---|
| • Team Leadership & Sprint Task Tracking | • Rapid Learner & Toolkit Adaptability |
| • Critical Thinking & Analytical Problem Solving | • Resilience & Performance Under Pressure |
