CAREER OBJECTIVE

Motivated and detail-oriented Computer Science student with hands-on experience in full stack developer using the MERN stack (MongoDB, Express, React, Node.js). Eager to contribute to cutting-edge projects by creating scalable mobile and web apps and consistently developing as a developer in a team setting.

EDUCATION

Bachelor of Science in Computer Science

Arab Open University – Lebanon

2021 - 2025

BT3 in Information Technology

CIT – Technical School

2019 – 2021

PROJECTS

Final Year Project – AOU Android App

- Developed a cross-platform mobile application using React Native and Express and mysql database
- Implemented user authentication, real-time updates, and clean UI/UX design.
- Created an educational app to help students learn more efficiently and interact seamlessly with tutors and peers.

Client App – YBD Mobile App

- Developed and deployed a charging app for a local client using React Native, Laravel backend, and MySQL database.
- Integrated an AI chatbot for customer support and guidance.
- Implemented user management, data tracking, and real-time functionality to enhance client operations.

Portfolio Projects – Explore Lebanon

- Created full stack applications using React, Express, Node.js, and MongoDB.
- Implemented JWT-based authentication and integrated RESTful APIs.
- Collaborated with a team at Techlarious, using GitHub for version control, contributing to schema design, API development, and testing.

EXPERIENCE

Remote Support Engineer

IT Practice — Remote

Sept 2024 – Mar 2025

- Managed and maintained Windows Server infrastructure.
- Used Acronis to back up data and configure recovery procedures.
- Configured Active Directory for user and resource management.
- Monitored system performance and resolved technical issues.

Data Management Officer

UNRWA – Beirut, Lebanon

Jul 2024 – Sept 2024

- Collected health data from various sources.
- Entered data into the eHealth system accurately and on time.
- Conducted data audits and ensured compliance with quality standards.
- Provided technical support and user training on data systems.

INTERNSHIPS

Full Stack developer

Techilarious

AUG 2025 – Present

- Developed a full-stack project using React, Node.js, Express, and MongoDB based on the skills taught during the program.
- Collaborated with a team on GitHub, contributing to API development, database schemas, and testing.
- Applied MERN stack skills in a practical project to simulate real-world development workflows.

Computer Science

Intern Megatek

Jul 2023 – Sept 2023

- Worked with Microsoft Dynamics 365 Business Central.
- Built sample apps using AL (Application Language).
- Gained hands-on experience with Microsoft Azure.

IT Intern

Arab Open University

Sept 2023 – Jan 2025

- Provided technical support to students, staff, and faculty.
- Troubleshoot network and software issues.
- Installed/configured applications and hardware.
- Delivered training and documentation for IT tools

TECHNICAL SKILLS

- **Programming:** React.js, React Native, HTML, CSS, JavaScript, PHP, SQL, Tailwind CSS
- **Database:** MySQL, PostgreSQL, MongoDB
- **Frameworks/Tools:** Bootstrap, Azure, Microsoft Dynamics.

- **Version Control:** Git, GitHub
- **Systems:** Windows 10/11, Active Directory
- **Office Tools:** Microsoft Office Suite, Excel (data analysis)
- **Other:** Network troubleshooting, Help Desk Support

SOFT SKILLS

- Strong communication (written and verbal)
- Fast learner with strong adaptability
- Detail-oriented in documentation and data input
- Leadership and teamwork skills

LANGUAGES

- Arabic: Native
- English: Fluent
