

Roy Zaouk

Computer Science Student & Software Developer

+961 81 233 235 | royzaou14@gmail.com | Zgharta, North Lebanon | www.royzaouk.com

PROFILE

Ambitious and results-driven Computer Science student at the Lebanese International University (LIU), with hands-on experience spanning web development, software engineering, social media management, and technology education. Founder of two ventures — GoldTech Media and Codix Tech — demonstrating strong entrepreneurial initiative and the ability to translate technical skills into real-world products. Passionate about building scalable web applications, SaaS platforms, and digital solutions. Actively seeking opportunities to contribute to innovative teams while continuing to grow as a full-stack developer and technology entrepreneur.

WORK EXPERIENCE

Founder & CEO

2025 – Present

Codix Tech — Zgharta, North Lebanon

- Founded Codix Tech, a technology company specialising in building custom websites, enterprise systems, SaaS platforms, and mobile/web applications for clients across various industries.
- Lead end-to-end product development — from requirements gathering and architecture design to deployment and client delivery — ensuring high-quality, scalable solutions.
- Manage client relationships, project timelines, and technical roadmaps, balancing multiple simultaneous engagements.
- Develop full-stack web applications using modern frameworks including React and Node.js, integrating SQL databases and third-party APIs.
- Drive business development efforts, including client acquisition, pricing strategy, and service packaging.

Coding Instructor

2026 – Present

BrightCHAMPS — Remote

- Delivered 250+ hours of live, structured coding instruction to students across multiple age groups and skill levels, maintaining consistently high engagement and satisfaction rates.
- Conducted 1-on-1 personalised sessions with 10+ students, adapting curriculum and pacing to individual learning goals and progress.
- Taught Introduction to Programming and Coding with emphasis on computational thinking, logic, and problem-solving fundamentals.
- Delivered hands-on project-based lessons in Game Development and Web Development, enabling students to build real, functional projects by the end of each course.
- Guided students step-by-step through building interactive websites using HTML, CSS, and JavaScript, covering DOM manipulation, responsive design, and basic interactivity.
- Provided constructive feedback, tracked student milestones, and communicated progress reports to parents and programme coordinators.

Founder & Social Media Manager

2023 – 2025

GoldTech Media — Zgharta, North Lebanon

- Founded and operated GoldTech Media, a boutique social media management agency serving small and medium-sized businesses in Lebanon.
- Developed and executed tailored social media strategies across Instagram, Facebook, and LinkedIn, driving measurable growth in client engagement and online presence.
- Produced high-quality visual content, copywriting, and branded assets using design tools, maintaining consistent brand identity across all platforms.
- Managed multiple client accounts simultaneously, overseeing content calendars, posting schedules, performance analytics, and monthly reporting.
- Built a reputation for delivering results-driven services, leading to client referrals and repeat business throughout the agency's operation.

Helper / Volunteer Field Assistant

2022 – 2024

World Food Programme (WFP)

- Supported operational and logistical tasks within WFP programmes aimed at addressing food insecurity in North Lebanon.
- Assisted in the coordination and efficient implementation of field activities, contributing to humanitarian aid delivery efforts.
- Demonstrated reliability, teamwork, and commitment to community service in a high-impact international organisation.

EDUCATION

Bachelor of Science in Computer Science

2022 – Present

Lebanese International University (LIU) — Tripoli

Core coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Technologies, Software Engineering, Operating Systems, Computer Networks, and Discrete Mathematics.
