Profile

Software Developer with 4+ years of experience in web application development using Angular, React, Vue, and TypeScript. Passionate about writing clean, maintainable code, solving complex problems, and continuously improving system quality. Proven ability to collaborate with designers, backend engineers, and product teams.

Work Experience

Entelligence – Frontend Developer (Power Pages / Dataverse)

Beirut, Lebanon | November 2025 – Present

- Building and customizing enterprise web portals using Microsoft Power Pages and Dataverse, delivering secure, scalable, and user-friendly solutions.
- Developing dynamic UI components and dashboards using JavaScript, Liquid, Dataverse Web API, and Azure Blob Storage.
- Working on React.js UI modules within the company's internal system (CRM-like platform), contributing to interactive pages and reusable components.
- Translating Figma designs into responsive, pixel-perfect UI pages while ensuring consistency with design systems and UX best practices.

Devancy – Software Developer (Freelance)

Beirut, Lebanon | October 2025 – Present

- Building a full-stack AI-powered education platform (SEEDS Hub) using Next.js, React, TypeScript, and MongoDB, featuring 70+ AI tools for educators..
- Integrating LLM providers (OpenAI, Anthropic Claude) and implementing authentication, i18n, and role-based access control.
- Developing interactive features including visual programming, rich text editing, data visualization, and Jupyter notebook integration.
- Writing unit, integration, and smoke tests using Vitest and contributing to Docker-based CI/CD pipelines.

Inmind.ai – Software Engineer

Beirut, Lebanon | September 2022 – August 2025

- Developed and optimized scalable web applications using Angular, Vue, JavaScript, TypeScript, Tailwind, PrimeNg, improving load times and responsiveness.
- Implemented automated unit and component testing in Vue.js, increasing coverage and reducing production issues.
- Collaborated with backend & UI/UX teams in Agile/Scrum (Azure DevOps) for smooth delivery.

Spexal Robotics – Frontend Web Developer & UI/UX Designer Intern

Beirut, Lebanon | January 2022 – September 2022

- Built responsive web applications with React.js + Figma/Adobe XD designs, delivering production-ready solutions.
 - Designed and optimized user interfaces for logistics robotics, improving usability and reducing task completion time.
 - Coordinated with cross-functional teams, managing sprints in ClickUp under Scrum methodology.
-

Education

Lebanese University - Bachelor's Degree - Management Information System (Business Computer)

Beirut, Lebanon | September 2018 – 2022

Training & Certifications

AWS Certified Cloud Practitioner – Issued 2023

Codi_Tech – Full Stack Web Development Bootcamp

Beirut, Lebanon | April 2021 – December 2021

- Built a Financial Tracker App and Gaming Platform using React.js and Laravel.
 - Gained hands-on experience with ReactJs, Node.js, SQL, Linux, and Git through 10+ projects.
 - Designed and launched a WordPress portfolio using Elementor.
 - Managed sprints in Trello, applying Scrum methodology.
-
