Career Objective:

Computer and Communication Engineer specializing in Multimedia with experience in UI/UX design and full-stack web development (MERN). Seeking an entry-level role to create impactful, user-centered digital solutions.

Education:

Antonine University

2022 – Present

Bachelor of Engineering in Computer and Communications (Master level)

Imam AL-Jawad High School | Life Science

May 2022

Work Experience:

UI/UX Designer | (Internship) Weave Wider- Hamra/Bliss Street

August 2025– September 2025

- Executed the end-to-end UX design process, conducting user research and competitive analysis to develop informed personas, site maps, and interactive user flows.
 - Transformed research insights into a high-fidelity Figma prototype, applying core accessibility standards and UI design principles to ensure a seamless dining experience for food ordering mobile application.
-

Training:

UI/UX Bootcamp

July 2025– September 2025

SE Factory

- Gained strong foundation in visual design fundamentals and core design principles.
 - Explored UX and UI design processes, including user research methods, user flows, usability heuristics, design laws, UX methodologies, and usability testing.
 - Developed a complete UX case study from research and analysis to redesign, applying documentation, storytelling, and Agile methodology.
 - Learned web design fundamentals including HTML, CSS, introductory JavaScript, and responsive mobile design for iOS, Android, and cross-platform systems.
 - Created motion graphics and animations using Adobe Photoshop and Adobe After Effects, and designed micro interactions using Figma.
 - Worked hands-on with industry tools such as Figma, Adobe Illustrator, Photoshop, and After Effects.
-

Projects:

Momento

2026

Figma, Adobe Illustrator, Notion AI

- Designed Momento, a mobile app that helps moms simplify family life by combining tasks, grocery lists..., and collaboration tools in one platform with the help of AI agent.
- Led the full UX process from surveys and user research to personas, user flows, wireframes, and a high-fidelity Figma prototype with accessibility in mind.
- Developed user personas, empathy maps, and clear problem statements to define core user needs.
- Designed low-fidelity wireframes and transformed them into a high-fidelity interactive prototype using Figma.
- Designed AI-driven features to assist with smart meal suggestions, automated grocery organization, and task prioritization.

AI Career Navigator

2026 (present)

Full-Stack project

- Designed and developed a full-stack web application using React.js, Next.js, Node.js, and MongoDB.
- Implemented RESTful APIs with Express.js to handle authentication, user data management, and CV processing.
- Integrated *OpenAI* API to generate personalized career roadmaps, skill-gap analysis, and AI-powered interview questions and answers.
- Built a CV parsing and skill extraction system using Natural Language Processing (*NLP*) techniques.
- Designed a responsive and modern UI using Tailwind CSS to enhance user experience.
- Implemented secure *JWT-based* authentication and deployed the application using Vercel/Render with *Git-based* version control.

E-Commerce Backend System

2024

Java (OOP Project)

- Designed and developed a command-line based e-commerce backend system to manage multiple product categories (Books, Computers, Digital Music, Home Appliances, and Furniture).
- Developed CSV file handling using [*BufferedReader*] and [*FileWriter*] for reading, parsing, and persisting structured data.
- Integrated JSON processing using [*Gson*] library to serialize and deserialize product data.
- Connected the system to MongoDB for NoSQL database storage, including collection management and document insertion.

Skills:

- C++
- OOP
- Java
- Data Structure
- MERN Stack
- Information System Security
- MATLAB
- Assembly
- Flutter
- Networking

- MongoDB
- SQL
- Infographics
- C#
- 3D Modelling
- Linux
- Image Processing
- Adobe Illustrator
- Adobe InDesign
- Adobe Photoshop

Certifications:

UI/UX Design | 2025
SE Factory

Enterprise Networking Security and Automation| 2023
Cisco Networking Academy

Introduction to Networks | 2022

Cisco Networking Academy

Languages:

Arabic – Native

English – Fluent (C2 Level)
