SUMMARY

Full Stack Developer with hands-on experience designing and optimizing RESTful APIs, database-driven systems, and scalable web applications. Skilled in writing clean, maintainable, and efficient code, with a strong focus on performance and reliability. Eager to secure an internship or entry-level role to further develop technical expertise within a collaborative team.

EXPERIENCE

Frontend Developer

03/2026 – 05/2026 | Remote

4finance-Anera

- Built a full-scale bilingual (Arabic/English) **React + TypeScript** municipal and tourism web portal for the city of Tripoli, Lebanon
- Collaborated with a **UI/UX** designer to translate Figma designs into pixel-accurate, responsive interfaces using **Tailwind CSS**
- Built and maintained multiple website pages and features, including tourism attractions, e-services, careers, and municipality content.

Backend Developer Intern

07/2025 – 08/2025 | Beirut, Lebanon

Aspire Software

- Completed a backend development internship focused on building SalesTrackerAPI, a backend system for managing products and sales using .NET technologies.
- Built RESTful APIs using .NET Core with Redis caching and JWT authentication.
 - Integrated Azure services for image uploads, queue alerts, and bulk Excel imports.
 - Set up logging, unit tests, Docker containerization, and IIS hosting.

Backend Developer Intern

10/2024 – 02/2025 | Remote

XpertBot

- Interned as a backend developer specializing in Laravel-based API development, security protocols, and performance tuning.
- Built and maintained backend systems using Laravel with optimized RESTful APIs.
 - Managed database design and implemented security protocols and access control.
 - Collaborated with the team to troubleshoot and improve application performance.

PROJECTS

Generators Management System

Laravel, Livewire, NativePHP, SQLite

- Managed generator subscribers, meter readings, and monthly billing operations.
- Built real-time validation, confirmation workflows, and keyboard-based data entry.
- Designed printable reports with full Arabic (RTL) support.

Blogs Platform

Laravel, MySQL

- Built a full-stack blog platform with authentication and CRUD operations for posts.
- Added likes, comments, and post filtering based on user preferences.

Pixel Positions

Laravel, MySQL

- Created a Laravel job board with skill-tagged listings and role-based access control.
- Built dynamic controllers for job posting and search with a Blade-based UI.

Notes App

MERN Stack

- Implemented secure user authentication along with full CRUD functionality for managing notes.
- Added priority levels, categories, real-time filtering, dynamic color-coding, and a clean two-panel UI for organized note management.

EDUCATION

Le Cnam Liban

Bs in Computer Science

2022 – 2025 | Baakline

TRAINING/COURSES

Full Stack Web Development (MERN Stack)

4finance

03/2026 – 05/2026

Advanced Web Development

YouBee.ai

07/2025 – 09/2025

Full Stack Web Development

YouBee.ai

04/2024 – 09/2024
