Education

09/2024 – Present	Lebanese University Bachelor's Degree in Computer Science Expected Date of Graduation: June 2027	Hadath, Lebanon
-------------------	---	--------------------

Experience

Workshops - GDG and LUCSC. <i>Jan 2025–Feb 2026</i> • Attended a series of hands-on technology workshops organized by Google Developer Groups and the Lebanese University Computer Science Club. • Gained practical exposure to software development tools, industry trends, and collaborative problem-solving. • Strengthened teamwork and professional development skills through peer learning and group activities.	Hadath, Lebanon
---	-----------------

Volunteer – LifeSculptor <i>May 2023–March 2024</i> • Supported community-focused initiatives and contributed to the coordination of organized group activities. • Demonstrated responsibility, clear communication, and commitment while working within a structured team environment.	Hadath, Lebanon
---	-----------------

Projects

Touristic Website - HTML, CSS, JavaScript <i>Dec 2025 – Jan 2026</i> • Designed and built a multi-page website presenting touristic destinations in a visually clear and user-friendly layout. • Structured content with semantic HTML and styled pages with CSS, incorporating JavaScript for interactive elements such as navigation and dynamic content display. • Iterated on layout, responsive design, and user experience through systematic testing and refinement.	Hadath, Lebanon
---	-----------------

Courses & Certification

The Complete Full-Stack Web Development Bootcamp <i>Sep 2022 – Jan 2023</i> Completed a comprehensive bootcamp covering full-stack web development: HTML, CSS, JavaScript, Node.js, and React. Built multiple projects across front-end and back-end disciplines.	Online
