Projects

CareMe • Senior Project

- Developed CareMe, a mobile healthcare management application that acts as a personal smart medical wallet.
- Help users securely store and manage medical records, medications, lab results, and appointments.
- Designed user-friendly interface pages including login/register, dashboard, health records, calendar, chatbot, and settings.
- Implemented a clear navigation structure to improve accessibility and user experience.
- Integrated key features such as medical reminders, AI chatbot support, medication interaction checking, and doctor/pharmacy recommendations.
- Contributed as a Frontend Developer, focusing on UI design, dashboard development, and overall app usability.

WORK EXPERIENCE

Flutter mobile development internship • Member • Beirut, Lebanon

May 2025 – June 2025

- Gained hands-on experience with Flutter, particularly in building reusable UI components using stateless widgets.
- Developed clean and efficient user interfaces following modern mobile design principles.
- Collaborated on app features, debugging issues and optimizing performance to ensure smooth user experience.

EXTRACURRICULAR ACTIVITIES

Lebanese Red Cross, Beirut Center • Public Relation Executive Committee Member

July 2024 – Present

- Built and maintained relationships with new and existing stakeholders to expand outreach and support the achievement of the center's strategic goals.
- Secured sponsorships from diverse sectors, contributing to the financial sustainability and continuity of the center's activities.
- Managed and developed the center's social media platforms, creating engaging content to enhance visibility and maintain a strong, professional public image.
- Led and supervised the Public Relations subcommittee, delegating tasks effectively and fostering team development to build a strong and capable cadre.
- Oversaw branding consistency, including uniform standards, ensuring a cohesive and professional representation of the center.
