PROFESSIONAL SUMMARY

Computer and Communication Engineering student specializing in Multimedia Engineering at the Antonine University. Proficient in Adobe Illustrator, Figma, and programming, with a strong interest in applying technical and creative skills to real-world engineering projects in a professional environment.

EDUCATION

Bachelor of Engineering in Computer and Telecommunications
(Master Level)

2023-present

Multimedia and Communication Engineering
Antonine University, Lebanon

WORK EXPERIENCE

Freelance Graphic Designer & Web Developer

Remote

June 2025 – Present

- Independently managed multiple design projects from concept development to final delivery while meeting deadlines and client requirements.
- Created high-quality visual content using Adobe Photoshop, Illustrator, and CanvaPro tailored to client branding needs.
- Designed user-centered interfaces by conducting user research, creating wireframes and interactive prototypes, and improving overall user experience.
- Managed social media content for a clothing brand, creating and scheduling posts to increase engagement and brand visibility.

Illustrator & Social Media Designer

Self-directed

June 2024 – Present

- Producing an ongoing series of original Arabic and bilingual posters published on Instagram — combining typographic illustration, custom artwork, and visual storytelling.
- Designing and illustrating an independent book project in Adobe Illustrator, building a personal creative voice across both print and digital formats.

Graphic Designer – Maliks Company

June 2025 – Sept 2025

- Created visual assets for digital and print media aligned with brand identity guidelines.
- Assisted senior designers in developing and refining creative concepts.
- Produced layouts, graphics, and multimedia content using modern design tools.

Technical Support Intern – OMT Company

Sept 2024 – June 2025

- Ensured secure and compliant processing of financial transactions using internal systems and technologies.
- Maintained and repaired hardware components including screens, keyboards, ports, and batteries.
