

FELIX HAJJ

Beirut, Achrafieh | +961 71 252 050 | felixhajj@gmail.com

PROFILE:

- 09/2021 – 07/2024** **University of Saint-Joseph (USJ)**
Bachelor of Computer Science
- 07/2021** **Collège du Sacré-Cœur – Beirut**
Lebanese Baccalaureate in General Science

EDUCATION:

- 07/2025 – Present** **PIGEON 318 — Freelance Game Developer**
Technologies: Unity, C#, Git, MCPs, IAP Systems (Mobile), Notion(Scrum-Kaban), JSON/REST
 - Sole developer responsible for core game systems and technical decisions
 - Designed progression, economy, and balancing systems with full documentation
- 08/2025 – 11/2025** **Airsight — Freelance IT Support**
Technologies: Confidential and related to the entreprise
 - Provided server support and internal system troubleshooting
- 06/2025 – 12/2025** **Dev-Client Bridge Assistant Workflow(N8N)([link](#))**
Technologies: n8n, Twilio WhatsApp API, GitHub REST API, Notion API/Databases, Google Sheets API, Webhooks, JavaScript, JSON/REST.
 - Built a WhatsApp-based automation system that converts short client or developer messages into structured tasks, updates, and code summaries across Notion and GitHub to serve as a bridge between client/Developer and the Project.
 - Reduced project coordination overhead by enforcing roles, routing requests automatically, and keeping tasks, sprints, and code activity in sync through workflow automation (n8n).
- 02/2024 – 05/2024** **University of Saint-Joseph — Software Development Internship**
Technologies: ASP.NET Core, Web API (REST), Swagger / OpenAPI, C#, Entity Framework, CQRS (with MediatR), RabbitMQ, N-Tier Architecture
 - Worked on the Student Information System (SIS)
 - Used .NET, Web API, and CQRS architecture

SKILLS:

Languages: English (Professional), French (DEL F B2), Arabic (Native)
