

Abbas Jaber

81/076 902 – abbasjaber9090@gmail.com

Education

Lebanese International University, Nabatiyeh, BS.

Sep. 2022 – June 2025

Bachelor of Computer Science, GPA = 3.44

Lebanese University M1.

Sep. 2025 - On going

42 Beirut Fall Piscine

Sep. 2025 – Oct 2025

Experience

- **Front-end Software engineer at SofthubIT.**

Jan. 2026 - March 2026

Technical Knowledge

Programming Languages:

- **Java:** Experienced in object-oriented programming, developing robust and scalable applications.
- **C++:** Proficient in system-level programming, memory management, and performance optimization.
- **C / C#:** Skilled in low-level programming, embedded systems, and hardware interaction.
- **Python:** Expertise in scripting, data analysis, machine learning, and web development(Flask)
- **JavaScript:** Proficient in front-end development, dynamic web applications.
- **TypeScript:** Proficient in front-end development, dynamic web applications using Angular
- **PHP:** Skilled in server-side scripting, developing dynamic web pages, and integrating with databases.
- **MySQL:** Experienced in writing complex queries, database design, and optimization for performance.
- **Dart:** Proficient in developing cross-platform mobile applications using Flutter.
- **HTML & CSS:** Skilled in creating responsive web designs, styling, and implementing animations.

Graphic Design & Video Editing:

- **Canva:** Proficient in creating visually appealing graphics and presentations.
- **Cap-Cut:** Skilled in video editing with expertise in creating engaging short videos.

Technical Skills:

- **Microsoft Word:** Proficient in document creation, formatting, and advanced features such as mail merge and macros.
- **Microsoft Excel:** Skilled in data analysis, pivot tables, advanced formulas, and creating complex spreadsheets.
- **Microsoft PowerPoint:** Experienced in designing engaging presentations, utilizing advanced features like animations and multimedia integration.
- **Arduino:** Proficient in hardware programming, developing and prototyping electronic projects, and integrating sensors and actuators.

- **Cameras:** Proficient in using various types of cameras for photography and videography, understanding of camera settings, and post-processing techniques.

Projects

Arduino-Safe lock Project: May, 2024 • Designed and implemented a secure lock system with a keypad interface using Arduino Uno.

Web Development Projects : May, 2024- 2025

- Developed a fully functional e-commerce website for online retail.
- Developed a fully functional e-commerce website for Clothing brand.
- Built a dynamic website for a local café to enhance its online presence and customer engagement.
- Built a full working pos system with inventory management on web for clothing store with all functionalities and privileges
- Built a full pos system on desktop for a Café store
- Built fully functional and optimized Dietitian clinic system for special diet plans and measurements with a healthy menu, calendars, appointments and its fully optimized

E-commerce mobile application: June, 2024

- Developed a comprehensive e-commerce mobile application for Android platforms using Flutter

Graduation Project:

- Full Hotel Package:
 - Professional Website to handle rooms reservations, dates, and more
 - Full System engaging from security using face recognition to easier registration for new guests using web came to OCR the MRZ on passports

Personal Skills

- **Communication:** Excellent verbal and written communication skills, with the ability to articulate ideas clearly and effectively.
- **Teamwork:** Proven ability to work collaboratively in diverse teams and contribute to group objectives.
- **Problem Solving:** Strong analytical skills, adept at identifying issues and implementing effective solutions.
