

JANA AL TABECH, COMPUTER SCIENCE STUDENT SPECIALIZING IN CYBERSECURITY

+961 76746082, janaeltabech@gmail.com, www.linkedin.com/in/jana-al-tabech, github.com/janaxt

PROFILE

Computer Science student with experience in programming, game development, and cybersecurity. Skilled in Java, web development, problem-solving, and ethical hacking. Passionate about learning and contributing to innovative projects in software development.

EXPERIENCE

42 Beirut Piscine – Intensive Coding Bootcamp

Apr 2025- May 2025

I learned C programming, UNIX, and Shell scripting through hands-on challenges in a fast-paced, peer-driven environment. The experience strengthened my teamwork, problem-solving, and time management skills, and gave me practical experience with Git, debugging, and automated testing.

Grafix - Full Stack Web Developer

May 2025- Nov 2025

I had the chance to work on real client projects across different categories, including entertainment websites, e-commerce platforms, online stores, and wedding invitation websites with RSVP functionality. I'm also currently working on additional projects in other categories that are still in progress.

Semicolon - BAU Ambassador

Oct 2025 - Present

Working to raise cybersecurity awareness, engage with students, and contribute to building a stronger security community on campus.

BAU Medical E-Portfolio - Senior Project Frontend Developer : Angular, TypeScript, Bootstrap, CSS

Sep 2025 - June 2026

As part of my senior project, I worked as a frontend developer on a multi-role web application designed to manage medical residency programs across 9 user roles. I built the frontend as a single-page application using Angular and TypeScript with a modular architecture, implementing role-based routing with Angular Guards, HTTP Interceptors for automatic JWT token handling, and dynamic form rendering using Angular Reactive Forms. The UI was designed to be responsive and branded using Bootstrap Grid and custom CSS.

CERTIFICATES

ACPC Africa and Arab Collegiate Programming Championship

Apr 2025

Certificate of Participating in 42's 4-week Assessment Period

Apr 2025

Certificate of Participation in the Lebanese Universities CTF 2025

June 2025

Certificate of Appreciation for Volunteering as a Student Assistant - AI Summer Camp BAU

Aug 2025

Certificate of Achievement LCPC Collegiate Programming Contest

Oct 2025

EDUCATION

Bachelor of Science in Computer Science, Beirut Arab University

Sep 2023 - May 2026

SKILLS

- **Programming Languages:** Java, C++, C, PHP, Python, JavaScript, HTML, CSS, Shell Scripting (Bash)
- **Web Development and Database Management:** SQL, MySQL, XAMPP, Server-Side Scripting
- **Development Tools:** UNIX/Linux Systems, Git, VS Code, Debugging & Automated Testing, Adobe After Effects, Adobe Photoshop, Godot Engine
- **Other Skills:** Algorithmic Problem Solving, Peer Collaboration, Self-Directed Learning, Time Management, Teamwork & Communication
