PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate and entry-level UI/UX Designer. Combines a solid technical development background with a strong focus on design systems, user accessibility, and seamless interface creation. Experienced in collaborative team environments and dedicated to building intuitive, user-centered digital products.

SKILLS

- **Design & Tools:** UI/UX Design, Figma, Design Systems, Wireframing, Prototyping, Usability Testing
- **Frontend Development:** HTML5, CSS3, JavaScript, React JS, React Native
- **Backend & Databases:** Node.js, PHP, MySQL, MongoDB, Firebase
- **Core Concepts:** Programming Logic, Gestalt Principles, Hick's Law, Networking Basics

PROJECT

Spot — Mobile Application — UI/UX Designer (June 2026)

- Designed a modern, card-based mobile interface utilizing the Inter typography family and clean layout hierarchies.
- Developed the application's comprehensive branding, logo generation, and user flows centered heavily around usability and design consistency.

Emirates Airlines Website — UI/UX Redesign — UI/UX Designer (May 2026)

- Conducted a thorough usability evaluation, mapping out extensive site maps and user flows to optimize information architecture.
- Created high-fidelity wireframes and design layouts specifically addressing existing visual hierarchy and contrast issues.

GameOn — Sports Booking App — Frontend Developer (Team of 3) (June 2023)

- Developed a user-friendly mobile application facilitating reservations for local sports facilities.
- Engineered responsive frontend interfaces using React Native and integrated Firebase for data storage, authentication, and real-time updates.

DevHire — Freelance Marketplace Platform — Full-Stack Developer (Team of 3) (June 2023)

- Built a web platform connecting freelancers and clients within the programming domain to foster smooth project collaboration.
- Utilized PHP and MySQL to construct a secure backend architecture handling client authentication and data storage.

EDUCATION

Bachelor of Science in Computer Science | Le Cnam University (Faculty of Engineering) (Graduated: June 2026)

TRAINING & CERTIFICATIONS

- **UI/UX Design & Development Onboarding** — SE Factory (May 2026 – Present)
- **Technical & Soft Skills Training** — Tashgheel - Laser (Apr 2023 – Jul 2023)
Covered React JS, Node.js, MongoDB, React Native, along with workspace communication and interview prep.
- **Cisco: CCNA-SRWE Certified Course** — AUF (Agence Universitaire de la Francophonie) (Jan 2023)
- Gained core competencies in foundational networking principles, routing, switching, and network security.

VOLUNTEERING

- Lebanese Red Cross Youth Sector (Jan 2023 – Present)
- Takaful Charity (Sep 2021 – Present)
- Tripoli Entrepreneurs Club (Aug 2022 – Present)
