

Ahmad Al Akoum

Computer Science Student

ahmadalakoum95@gmail.com | +961 81216058 | Beirut, Lebanon | [LinkedIn](#) | [GitHub](#)

PROFILE

Computer Science student with solid expertise in software engineering, networking, and artificial intelligence. Proven experience in developing full-stack web applications using modern technologies including HTML, CSS, JavaScript, PHP, MySQL, Laravel, and Java. Completed intensive technical training in cybersecurity, networking, IoT, and AI, endorsed by the Lebanese IT Syndicate. Driven to design scalable systems, solve complex problems, and deliver high-quality software solutions.

EDUCATION

Bachelor of Science in Computer Science Expected Graduation: 2026
Lebanese University, Beirut

Lebanese Baccalaureate – General Science (GS) 2020–2021
Collège Universel, Chhim Ranked 16th Nationwide – Grade: 18.556 / 20 (Excellent)

PROJECTS

Career-Connect - GitHub *HTML, CSS, JavaScript, Bootstrap, PHP, MySQL*
Developed a full-stack web platform connecting job seekers and employers with authentication, profile management, job posting, and CRUD operations.

UniDrop - Demo *HTML, CSS, JavaScript, Bootstrap, PHP, MySQL*
Built a campus delivery web application focused on usability, order management, and user experience.

NovaRate - GitHub *Java, XML*
Developed a mobile currency converter app with authentication, profile management, and real-time exchange rate integration.

TRAINING & CERTIFICATIONS

- **Technical Training Program – EFE in Lebanon**
Completed intensive training covering networking, cybersecurity, IoT, and AI concepts through hands-on learning and industry-focused courses.
- **Networking Basics – Cisco Networking Academy** **Certificate**
Learned key networking concepts including IP addressing (IPv4/IPv6), routing fundamentals, network communication, and troubleshooting techniques.
- **Introduction to Cybersecurity – Cisco Networking Academy** **Certificate**
Gained knowledge of cybersecurity fundamentals, including common threats, vulnerabilities, online safety, and protection mechanisms.
- **Introduction to Internet of Things (IoT) – Cisco Networking Academy** **Certificate**
Explored IoT systems, digital transformation, data-driven technologies, and the role of automation in modern industries.
- **Introduction to Modern AI – Cisco Networking Academy** **Certificate**
Learned fundamental AI and machine learning concepts, including neural networks, large language models, and real-world AI applications.
- **Programming in Python – Meta (Coursera)** **Certificate**

SKILLS

Programming:	C, Java, Python, PHP, JavaScript
Mobile:	Android (Java, XML)
Frameworks:	Laravel, Bootstrap
Databases:	MySQL
Tools:	Git, GitHub
Networking:	IP Addressing, Routing Basics, Network Troubleshooting
Languages:	English (C1), French (B2), Arabic (Native)
Soft Skills:	Problem solving, Critical thinking, Self-management, Goal setting, Career planning, Communication, Active listening, Teamwork, Professional behavior, Workplace ethics
