OBJECTIVE

Computer Engineer and junior developer with a strong interest in software development, networking, robotics, and artificial intelligence. Skilled in problem-solving, system design, and developing technical solutions with a passion for learning modern technologies

WORK EXPERIENCE

Full Stack Developer Intern Techaquare, Dubai

jan. 2026 - april. 2026

- Worked as a Full Stack Developer intern on web projects
- Managed database queries and optimized system performance
- Developed employee management features using Vue.js
- Used Node.js framework for backend
- Assisted in backend and frontend data integration
- Implemented attendance and employee card functionalities

Freelance Network Engineer Artevor, Riyadh

Sep. 2025 - Dec. 2025

Worked during the Riyadh Season on the Mr Beast "Beast Land" project in Riyadh, where responsibilities included configuring and monitoring network systems for live event operations and real-time game score broadcasting. Managed server deployment, optimized network performance, and designed Wi-Fi coverage to ensure stable wireless connectivity across event areas. Collaborated with engineering and technical teams to troubleshoot network and server-related issues during high-demand live operations while maintaining reliable system functionality.

Freelance Project Supervisor and Contractor WhiteBox, Riyadh

dec. 2025- dec. 2025

Worked as a Freelancer Supervisor and Contractor on the MDL Beast event project in Riyadh, overseeing design-related operations and coordinating workflow between the company team and project stakeholders. Managed communication, supervised on-site tasks, and assisted in contractor coordination to ensure smooth project execution. Gained practical experience in project management, team coordination, and handling large-scale event operations within high-pressure environments.

EDUCATION

May. 2025

BE in Computer Engineering

beirut Arab University
Beirut, Lebanon

SKILLS

- **Networking:** TCP/IP, Network Configuration, Routing & Switching
 - **Frontend :** HTML, CSS, JavaScript, Angular, React
 - **Backend:** Spring Boot framework, Vue.js, Express.js and Node.js
 - **Databases:** Relational DB (MySQL)
 - **Programming languages:** Java, JavaScript, Python, C++
 - **Version Control:** Git and GitHub, mercurial
 - **Soft Skills:** Analytical Thinking, Teamwork, Fast Learning, Communication, Time Management
-

LEADERSHIP AND AWARDS

- 2nd Rank Award at the IEEE Technology Competition FYP Project – AI-Powered Fire-Fighting Drone with Full Software and Hardware Integration
- Certificate in a 4-Month Full Stack Web Development Bootcamp from YouBee
- IC3 Certification in Microsoft Edge and Digital Literacy Skills
