

ROY EID

Full-Stack Web Developer | MERN Stack

roy.eid02@gmail.com | +961 81 987 156 | Beirut, Lebanon | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Junior full-stack developer specialized in the MERN stack, with hands-on experience building and deploying real-world web applications. Developed MediCare, a production-deployed healthcare platform featuring role-based access, JWT authentication, REST APIs, and an analytics dashboard. Currently pursuing a B.Sc. in Computer Engineering at LIU. Trilingual in Arabic, English, and French.

TECHNICAL SKILLS

Frontend: React.js (v19, Hooks, Context API), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router, Recharts, Axios

Backend: Node.js, Express.js, REST API Design, JWT Authentication, bcryptjs, Multer, Brevo (Transactional Email)

Database: MongoDB, Mongoose ODM, MongoDB Atlas, MySQL

Tools & Deployment: Git, GitHub, Vercel, Render, Postman, VS Code, ImageKit, XAMPP

Also Familiar With: PHP, Bootstrap, jQuery, Java

PROJECTS

MediCare — Doctor Appointment System

April 2026 – May 2026

React 19 · Node.js · Express.js · MongoDB · Mongoose · Tailwind CSS · JWT · Recharts · ImageKit · Brevo · Vercel · Render

[Live Demo](#) | [GitHub](#)

- Developed a production-deployed MERN healthcare platform with role-based access for patients, doctors, and administrators across protected APIs and React routes.
- Built an appointment scheduling workflow with 30-minute time slots, status management, booking validation, cancellations, and two-way reschedule requests.
- Implemented secure authentication using JWT, bcrypt password hashing, email verification, and password reset functionality.
- Created an admin analytics dashboard with Recharts to visualize appointment trends, status distribution, doctor activity, and platform performance.
- Integrated MongoDB Atlas, ImageKit image uploads, automated appointment completion jobs, and deployment configurations for Vercel and Render.

eCommerce Web Application

Nov 2025 – Dec 2025

PHP · MySQL · JavaScript · jQuery · Bootstrap · HTML5 · CSS3

[GitHub](#)

- Developed a full-stack eCommerce web application using PHP, MySQL, Bootstrap, and jQuery.
- Implemented user authentication features including registration, login, logout, session handling, and user profile management.
- Built product browsing functionality with category filtering, tags, and individual product detail pages backed by a structured MySQL database.
- Created an admin dashboard to manage platform content and support core eCommerce operations.
- Designed a responsive, mobile-friendly interface using Bootstrap with interactive UI behavior powered by jQuery.

EDUCATION

Bachelor of Science — Computer Engineering

Oct 2023 – Expected Jun 2026

Lebanese International University (LIU) | Beirut, Lebanon

Relevant Coursework: Data Structures and Algorithms, Databases, Web Development, Mobile Development

Lebanese Baccalaureate — Sociology & Economics

2022 – 2023

Lycée Notre Dame du Perpétuel Secours Saint Maxime (NDPS) | Beirut, Lebanon

CERTIFICATIONS

Microsoft Full-Stack Developer — Microsoft | Aug 2025 [Coursera](#)

12-course specialization covering C#, ASP.NET, Blazor, database integration, authentication, and full-stack deployment.

Full Stack Web Development with Flask — LinkedIn Learning | Aug 2025 [Linkedin Learning](#)

Hands-on course covering Flask routing, backend structure, and full-stack web application fundamentals.

WORK EXPERIENCE

Administrative & Operations Coordinator

Sep 2025 – Present

Padek Club | Beirut, Lebanon

- Oversaw daily inventory and resource management, ensuring operational continuity for club activities.
- Managed financial transactions and payment processing, maintaining accurate records and accountability.

CCTV Operator

Aug 2024 – Sep 2025

HOLDAL Group | Beirut, Lebanon

- Monitored live security feeds and responded to alarms, coordinating with on-site teams under time pressure.
- Produced detailed daily incident reports and maintained equipment logs — building discipline in documentation and process adherence.
