SKILLS

Programming languages Python – Intermediate, Java – Intermediate, SQL – Intermediate

Frontend HTML – Intermediate, CSS – Intermediate

Backend Backend development – Intermediate

Soft skills Time-efficient, Keen for details, On time, Team Development

Languages English , Arabic , German beginner , English — Intermediate, Arabic — Intermediate, German beginner — Intermediate

PROJECTS

Aurora

Present

- Fully functioning web page that lets users explore the world's most important places.
- Users can rate photos and add places to a favorites list to save for later.
- Integrated video playback so users can watch related videos for each place.

Jarvis

- AI assistant named Jarvis designed to act like a combined Google and Alexa.
- Provides natural language responses and voice-like assistant features to answer queries and perform tasks.
- Demonstrates skills in NLP integration and assistant-style interaction design.

EDUCATION

in Data science , USAL University (GPA: 2.3)

Oct '23 — Present
Lebanon

- I am still currently attending my university as a 3rd year graduate
- Relevant coursework: Data Structures, Statistics for Data Science, Machine Learning, Database Systems

VOLUNTEERING

Coding mentor (Volunteer), Personal tutoring

- Tutored a beginner in Java, teaching core concepts and hands-on exercises
- Built simple practice assignments to reinforce object-oriented programming and basic algorithms
- Provided ongoing feedback and troubleshooting during learning sessions

Freelance debugging volunteer, Peer projects

- Diagnosed and fixed functional bugs in a friend's codebase
- Improved code stability and resolved runtime errors through targeted debugging and testing
- Explained fixes and recommended best practices to prevent regressions

Open-source contributor (Volunteer), GitHub collaborations

- Contributed bug fixes and small feature improvements to public repositories on GitHub
- Collaborated with maintainers through issues and pull requests and followed contribution guidelines
- Improved documentation and code readability in contributed areas
