

RAZAN ZBIB

UI/UX DESIGNER | COMPUTER SCIENCE GRADUATE

Beirut, Lebanon | +961 81 737 963 | zbibrazan147@gmail.com | linkedin.com/in/razanzbib

PROFESSIONAL SUMMARY

UI/UX Designer and Computer Science graduate with hands-on experience in user-centered design, wireframing, prototyping, and responsive interface development. Brings a technical understanding of how digital products are built, paired with a strong interest in simplifying complex flows into clear, visually engaging experiences. Comfortable collaborating across requirements, data, and interface decisions.

UI/UX PROJECTS

The Spot - Local Discovery App | UX Case Study | 2026

- Designed a mobile concept that helps users discover local places, activities, and communities based on their interests.
- Created core product flows, onboarding, visual hierarchy, and interactive mobile UI screens in Figma.

Emirates Airlines - Flight Search Experience Redesign | UX Case Study | 2026

- Redesigned the homepage flight-search experience to make trip options, dates, promo codes, and multi-city access easier to find and use.
- Developed user flows, information architecture, wireframes, and a high-fidelity Figma prototype informed by usability-focused problem framing.

Lotus - Personal Brand Identity | Brand Identity Project | 2026

- Created a personal visual identity inspired by the lotus as a symbol of growth, resilience, and transformation.
- Defined logo direction, typography, color system, and a portfolio experience that translates the identity into a digital narrative.

EXPERIENCE

ERP Developer Intern | Coders Solutions | Feb 2026 - Apr 2026

- Collaborated on Business Central customizations and data-driven solutions, translating client requirements into functional system updates.
- Supported REST, OData, and web-service integrations; tested endpoints and validated data during migration activities.
- Built Power Apps solutions and gained experience working across requirements, workflows, data, and user needs.

EDUCATION & CERTIFICATIONS

B.S. in Computer Science | Lebanese University - Faculty of Sciences | Jul 2024

Samsung Innovation Campus - Artificial Intelligence (2025)

AWS Academy Graduate - Cloud Foundations (2024)

SKILLS

UX & PRODUCT DESIGN

User-centered design, UX research basics, user flows, information architecture, wireframing, prototyping, usability-focused iteration

TECHNICAL FOUNDATION

HTML, CSS, JavaScript, ReactJS, PHP, Python, SQL, Git, Postman, VS Code

UI & VISUAL DESIGN

Figma, FigJam, Adobe Illustrator, interface design, responsive layouts, design systems, visual hierarchy

ADDITIONAL TOOLS

AWS basics, Power Apps, AL, Business Central, data preprocessing, TensorFlow/Keras
