Profile

Highly motivated Computer Science graduate from Antonine University with a solid foundation in full-stack development. Proficient in building scalable applications using Laravel and the .NET ecosystem. Experienced in developing secure RESTful APIs, implementing robust authentication (JWT/Identity), and designing user-centric interfaces. Eager to contribute technical expertise to a forward-thinking engineering team.

Education

- 2022–2026 **Bachelor of Science in Computer Science**, *Antonine University*, Baabda, Lebanon
- Graduated: May 2026
 - Relevant Coursework:** .NET Framework (Web API, MVC), UX/UI Design, Web Development, Data Analysis, Data Structures, Algorithms, Database Management.

Internship Experience

- June **Web Development Intern**, *Suyool*, Beirut, Lebanon
- 2024–Aug 2024
- Contributed to the Web Development department using HTML, CSS, JavaScript, and PHP.
 - Integrated and tested RESTful APIs to enhance platform functionality and data flow.
 - Collaborated with senior developers to fix UI/UX issues and maintain code standards.

Projects

- 2026 **Secure Web Application Development**, *Academic*
- Architected a full-stack application using the **.NET MVC** pattern and **C#**.
 - Designed a secure **Web API** with **Authentication and Authorization** (Identity/JWT).
 - Managed data flow between a front-end interface and a SQL database.
- 2024–2025 **Delivery App System**, *Academic/Personal*
- Built a management system connecting clients, drivers, and admins via **Laravel**.
 - Implemented real-time order tracking using Google Maps API and secure payment gateways.
 - Stack:** Laravel (PHP), MySQL, Bootstrap, Git, REST APIs.

Technical Skills

- Languages C#, PHP, JavaScript, C++, Java, SQL, Python, HTML5/CSS3
- Frameworks .NET (Web API, MVC), Laravel, React, React Native, Bootstrap
- Tools/Other JWT/Identity, REST APIs, Git/GitHub, UX/UI Design, Data Analysis
- Spoken English (Fluent), French (Fluent), Arabic (Native)
