Professional Summary

Third-year Information Technology student at Rafik Hariri University with practical experience in IT support, networking, database systems, and software development. Skilled in Python, C++, C#, SQL, JavaScript, HTML, and CSS. Seeking an internship opportunity to contribute technical skills while expanding experience in software engineering and IT infrastructure.

Technical Skills

Programming: Python, C++, C#, JavaScript, SQL

Web: HTML, CSS

IT & Networking: Technical Support, Network Troubleshooting, Cisco Packet Tracer, Database Design, Hardware & Software Troubleshooting

Education

Bachelor of Information Technology, Rafik Hariri University (2023–2026) | GPA: 3.24/4.0
High School Diploma – Life Sciences, Doha High School (2022)

Professional Experience

IT Intern – Wide Concept, Lebanon (3 Months)

- Diagnosed and resolved hardware, software, and network issues.
- Supported operating systems, connectivity, and peripheral devices.
- Assisted with network configuration and workstation maintenance.
- Supported audiovisual and screen-programming systems for large-scale events.

Projects

Campus Network Design (Cisco Packet Tracer) – Designed enterprise network topology, subnetting, IP addressing, and routing configurations.

Database Design & Implementation – Developed relational database schemas, normalization structures, and SQL queries.

ParkMe Smart City (IoT System Planning) – Created IoT architecture, technical documentation, WBS, and Gantt charts.

Relevant Coursework

Database Systems, Computer Networks, Software Engineering, Web Development, Data Structures, Project Management
