Summary

Computer Science student and self-learner focused on software engineering and full-stack web development using JavaScript, React, Node.js, and MongoDB. Passionate about building scalable applications and collaborating in modern software engineering environments.

Education

Lebanese University
B.S. in Computer Science

Beirut, Lebanon
Sep. 2025 – Present

Experience

TechTalks Community
Backend / Frontend Architecture Intern

Beirut, Lebanon
Sep. 2025 – Oct. 2025

- Developed full-stack application features using Node.js, React.js, and MongoDB.
- Collaborated with a team using GitHub for version control and Jira for task management.
- Gained hands-on experience in frontend/backend architecture and Agile software workflows.

Projects

ECoNet Website
Full-Stack Event Management Platform

Nov. 2025

- Built a full-stack event management platform with booking, paid events, organization accounts, and online hosting.
- Implemented AI assistant, smart notifications, downloadable tickets, discussion chat, and dark mode.
- Developed using React.js, Next.js, Node.js, MongoDB, CSS, and Vercel.

Courses

- Modern JavaScript Development
- React.js & Next.js Web Development
- Node.js Backend Development

Skills

Programming:	JavaScript
Frontend:	React.js, Next.js, CSS, Responsive Web Design
Backend:	Node.js, REST APIs
Database:	MongoDB
Tools:	GitHub, Jira, AntiGravity, Vercel
Software Engineering:	Agile Workflow, Team Collaboration, Version Control, Problem Solving, Self-Learning

Languages

Arabic: Native
English: Fluent
