🌐 Mohammad Alhanafi

Profile

Recent Computer Science graduate with a strong foundation in **full stack web development**, specializing in **PHP (Laravel)** and Angular. Skilled in building responsive, scalable web applications and integrating **RESTful APIs**. Hands-on experience with **MySQL, JavaScript, HTML, and CSS** through academic projects and internships. Eager to contribute as a **full stack developer** in a dynamic team, with a passion for **clean code**, continuous learning, and **problem-solving**.

Professional Experience

Web development Boot Camp 9 Training, YouBee.ai 

07/2025

Completed hands-on training in web development and **cybersecurity**. Built responsive web apps using **HTML, CSS, JavaScript, Angular, PHP, and Laravel**, with a focus on secure coding and best practices. Gained experience in RESTful APIs, **MySQL** integration, and basic protection against **web vulnerabilities** (XSS, SQL Injection, CSRF).

Education

Computer Science, Lebanon International University 

2021 – 2025
Lebanon

Skills

Technical skills

- **Web Development:** HTML, CSS, JavaScript, Angular
- **Networking & IT Fundamentals:** Cisco 1, Cisco 2, A+
- **CS Foundations:** Data Structures & Algorithms
- **Backend & Databases:** PHP, C#, Java, Laravel, MySQL, SQL
- **Cybersecurity:** Web Security (XSS, SQL Injection, CSRF), Secure Coding Practices

Soft Skills

- Prompt engineering and usage of AI tools (e.g., ChatGPT, Copilot) Leadership,
- Good team player Multi-Task,
- Work hard Good Communication
- Empowering people
- Self-Learning, Search skills

Languages

- Arabic
- English

Courses

Cisco IT Essentials (A+ Equivalent) – Fundamentals of computer hardware, software, and troubleshooting.

Cisco CCNA 2: Switching, Routing, and Wireless Essentials – Configuration of routers and switches, VLANs, STP, and wireless networks., Cisco

Cisco CCNA 1: Introduction to Networks – Basics of networking, IP addressing, and network protocols., Cisco

Projects

Graduation Project: Car Pooling System

Tech: HTML, CSS, JavaScript, PHP, MySQL – XAMPP

Designed and developed a web app that connects drivers with passengers for shared rides. Features include user login, ride posting, and ride searching. Backend built with PHP & MySQL, and hosted locally using XAMPP.
