

James Daher

Beirut, Lebanon • +961 78941997 • Daherjames2@gmail.com • [LinkedIn](#)

Information Technology graduate with a minor in Artificial Intelligence and currently enrolled in a Master’s program in Management Information Systems. Seeking an entry-level position where I can apply technical and analytical skills, gain hands-on experience, and grow within a technology-driven organization. Highly motivated, adaptable, and eager to learn.

CORE SKILLS

- Programming Fundamentals (Python, basic JavaScript)
- Web Development Basics (HTML, CSS, JavaScript)
- Requirements Engineering
- Cloud Computing Fundamentals
- Artificial Intelligence Concepts & Implications
- Database Design & SQL (Relational databases, ER modeling)
- IT Project Management Fundamentals
- Systems Analysis & Design
- Operating Systems Fundamentals

EDUCATION

SAGESSE UNIVERSITY – BEIRUT Double Master’s in Management Information Systems (MIAGE)	<i>September 2025-Ongoing</i>
SAINT GEORGE UNIVERSITY OF BEIRUT Bachelor in Information Technology	<i>September 2022-July 2025</i>

Academic Projects & Practical Experience

Major Academic Project – SummarAI (YouTube Lecture Summarizer)

Bachelor in Information Technology

- **Designed and developed a web-based application that summarizes YouTube videos into text using automatic speech transcription and natural language processing.**
- **Implemented audio extraction and speech-to-text transcription, followed by text summarization and multilingual translation features.**
- **Applied concepts from AI, data processing, and system design to transform unstructured video content into readable summaries.**
- **Worked on both backend logic and frontend integration, focusing on usability and performance.**
- **Documented system functionality, workflow, and limitations as part of academic requirements.**

Interests & Professional Development

- **Web3 & Blockchain:** Ongoing self-learning in blockchain concepts, decentralized applications, and digital ecosystems.
- **Artificial Intelligence Applications:** Interest in practical AI use cases, automation, and intelligent systems.
