

Dani Abou Fayssal

 daniaboufayssal@hotmail.com  76 097 516  Zahle, Lebanon  13/March/2003

Profile

Recent computer science graduate with a strong foundation in web development and a passion for building real-world applications. While I have not yet worked as a full-time employee, I have dedicated the past year to developing a range of personal projects that showcase my full-stack skills using Vue.js, Node.js, and MySQL. I am a quick learner, highly motivated, and committed to continuous improvement. I thrive on solving complex problems, exploring new technologies, and delivering clean, efficient code. Eager to contribute to a dynamic team and grow as a professional developer.

Education

Bachelor of Science in Computer Science, *Lebanese International University* 2025 Khiara, Lebanon

Lebanese Baccalaureate, *College Saint Joseph des Soeurs Antonines* 2020 Zahle, Lebanon

Projects

- LIU MEET Senior project

Developed LIU MEET, a real-time video conferencing platform inspired by Google Meet, enabling users to create and join meetings with live video, audio, and chat functionality. Implemented using WebRTC and WebSockets for seamless real-time communication.

Tech Stack: Laravel, React, WebRTC, WebSockets, MySQL

- Social Media web app

Built a dynamic social media web application with features like user authentication, interactive posting, and profile management.

Tech Stack: Vue.js, Node.js, Express.js, MySQL

- Restaurant website

Creating a delivery website for a restaurant involves building a platform where customers can browse a menu, place orders, and optionally pay online.
