SUMMARY

Computer Science student at Beirut Arab University with an interest in UX/UI design and front-end web development. Enjoys building clear, practical digital ideas and learning how technology can improve everyday user experiences. Brings tutoring experience, teamwork, event involvement, and a strong willingness to grow through hands-on training and real projects.

EXPERIENCE

Private Teacher / Tutor

Provided one-on-one academic support for students, helping with homework, exam preparation, and study habits while adapting explanations to each student's level.

Volunteering & Event Organization

Helped with event preparation and on-site support by organizing materials, assisting participants, and working with the team to keep activities running smoothly.
