Personal Summary

Open-to-learn and smart-worker with good communication skills. Known for accuracy and precision, I excel in high- pressure environment and thrive on challenges. My ability to analyze situations and implement solutions contributed to successful outcomes and organizational growth. Passionate about increasing my skills and knowledge to drive improvements and achieve my goals in software engineering and tech world.

Professional Experience

Training Program, Software/Web Development, ISS member of ICC	01/2026 – 03/2026 Beirut-Lebanon
• Full-Cycle Web Development: Designed, developed, and deployed responsive web applications using [Insert Languages, e.g., HTML, CSS, JavaScript] and [Insert Frameworks, e.g., React, Node.js], ensuring seamless cross-browser compatibility and user experience. • Quality Assurance & Debugging: Conducted rigorous testing and debugging of existing codebases to identify bottlenecks, resolve technical issues, and improve overall site performance and security. • Collaborative Feature Implementation: Collaborated within a development team to translate project requirements into functional features, adhering to clean code principles and version control (GitHub) best practices.	
Training Program, Software/Web Development, Ogero	11/2025 – Present Remote
• Currently completing a training program in software and web development. • Gaining hands-on experience in development tasks and technical problem-solving. • Working with tools and technologies relevant to the company's IT environment.	
Cashier, Gray Mackenzie Retail Lebanon-Signature by Spinneys	12/2024 – 10/2025 Beirut-Lebanon
• Handled the cash • Provided support to customers when needed • Supported customers by creating loyalty cards	
Operations Officer, Lifestyle N Technology (LNT)	11/2023 – 04/2024 Beirut-Lebanon
• Maintained updated records of more than 6.000 purchased products, delivery information, inventory, and invoices. • Handled all transfers, returns, and distribution of assigned inventory. • Reviewed the quality of purchased products, coordinate with warehouse staff, and take needful decisions (return, rotate, reshuffle, decrease price...) to optimize the healthiness of stock. • Developed and maintain relationships with more than 20 potential clients, retailers, wholesalers, and their correspondents' teams.	
Private tutor, Freelancer	11/2023 – 06/2024 Baabda-Lebanon
• Supported 3 students in their daily school agenda. • Revised the lessons for the exams. • Prepared extra sheets and solved them to increase their skills.
