

Zein Al Abidin Sawly

EDUCATION

Bachelor of Science in Computer Science

Antonine University – Baabda

2023 - 2026

EXPERIENCE

MOBILE DEVELOPMENT INTERN

Mobile Arts – Baabda

July 2025 - September 2025

Developed two mobile applications using Flutter and Dart, focusing on full-stack functionality, UI implementation, and prototyping. Designed intuitive user interfaces using various Flutter widgets and integrated GetX for efficient state management, improving application scalability and maintainability. Utilized Firebase services to enhance backend functionality, authentication, analytics, and overall application performance.

PROJECTS

CAR MARKETPLACE WEB APPLICATION

Developed a responsive web application for browsing, searching, filtering, and managing car listings. Implemented dynamic user interactions and client-side data persistence using HTML, CSS, JavaScript, and LocalStorage.

E-COMMERCE DATABASE

Designed and implemented a relational database for an online store to manage products, customers, orders, and payments. Developed an efficient schema with relationships to ensure data integrity using SQL.
