SUMMARY

Highly motivated and results-oriented software developer with strong hands-on experience in full-stack web development using **React, Vue.js, Node.js, Express, Spring Boot, FastAPI, and MongoDB**. Proven ability to design, develop, and deploy secure, scalable, and high-performance applications in Agile environments. Strong expertise in API development, modern frontend frameworks, database design, and clean code practices. Seeking a junior software developer role to contribute innovative solutions and grow within a high-performing engineering team.

EXPERIENCE

Devitty

Junior Web Developer

Beirut, Lebanon

January 2025 – Present

- Develop and maintain responsive web applications using **HTML, CSS, JavaScript, React, and Vue.js**, focusing on performance, responsiveness, and UI/UX enhancements.
- Collaborated with senior developers in Agile teams to implement new features, debug issues, and optimize application workflows.
- Integrated RESTful APIs and improved application performance and maintainability.
- Used Git/GitHub for version control and participated in code reviews to ensure high code quality.

Aspire Software

Fullstack Software Developer (Internship)

Beirut, Lebanon

August 2025 – September 2025

- Built and deployed full-stack web applications using Node.js, Express.js, MongoDB, and React.js following Agile best practices.
- Designed, developed, and tested 15+ secure RESTful API endpoints with JWT authentication, bcrypt password hashing, and comprehensive Postman testing.
- Created responsive React interfaces using Context API for state management and Axios for API communication.
- Designed MongoDB schemas using Mongoose and ensured data integrity and performance optimization.
- Deployed backend services on Heroku and frontend applications on Vercel, collaborating with senior engineers on architecture and code reviews.

4F Finance Training Center

Full-Stack Web Development Program

Beirut, Lebanon

February 2026 – May 2026

- Completed a 250-hour intensive full-stack web development program covering AI, UI/UX, HTML, CSS, JavaScript, React, SQL, MongoDB, Node.js, and Express.js.
- Built and deployed multiple full-stack projects applying MERN stack technologies with emphasis on real-world implementation and clean code practices.

Online

Full-Stack Web Development Intensive Program

Online

December 2025 – January 2026

- Completed a comprehensive 4-month web development program focused on the MERN stack with Bootstrap.
- Built multiple responsive web applications through project-based assessments, emphasizing real-world implementation and clean code practices.
- Participated in coding reviews and interview preparation sessions in a structured, deadline-driven environment.

EDUCATION

American University of Science and Technology (AUST)

Bachelor of Science in Computer Science

Lebanon

September 2022 – November 2025

- Relevant courses: Networking, Machine Learning, Web Development, software engineering.
- Participated in club events and extracurricular activities.
- 2 years majoring in Forensic Science.

Projects & Certifications

Jounieh Tourism Website | Full-Stack Web Application

May 2026

- Developed a modern and responsive tourism website for Jounieh, Lebanon using React, TypeScript, Vite, Node.js, Express.js, and MongoDB..
- Built multiple pages including Home, Seasons, Food, Visit, Hotels, and About Jounieh with a clean and modern UI.
- Used Zustand for state management and Axios to connect the frontend with backend APIs for dynamic website content.
- Implemented bilingual support, reusable components, interactive cards, and mobile-friendly layouts to improve user experience.

Digital Wallet – Full-Stack Financial Application | Personal Project

November 2025 – December 2025

- Developed a secure, full-stack digital wallet application using the MERN stack (MongoDB, Express.js, React, Node.js) with JWT authentication and bcrypt password hashing.
- Engineered a RESTful API with 10+ endpoints for user authentication, money transfers, deposits, withdrawals, and transaction history management.
- Implemented real-time balance updates, transaction filtering, and a protected dashboard using React Context API for state management.
- Designed 3 MongoDB schemas (User, Wallet, Transaction) with Mongoose ODM and deployed the full-stack application using Vercel (frontend) and Render (backend).

Full-Stack E-Commerce Platform

December 2025 – January 2026

- Engineered a full-featured e-commerce web application using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented secure user authentication with JWT, a persistent shopping cart, and Stripe API integration.
- Designed and developed a responsive, modern UI using Tailwind CSS, ensuring cross-device compatibility.
- Deployed the application using Vercel (frontend) and Render (backend).

Awards and Training

● Cisco IT Essentials	2022
● Cisco Networking Course	2023
● Access 13 Amideast	2024

SKILLS

TECHNICAL SKILLS:

- **Programming Languages:** Java, Python, C/C++, SQL, JavaScript.
- **Frontend Frameworks & Libraries:** React, Vue, jQuery.
- **Backend Frameworks & Libraries:** Express.js, Spring Boot, FastAPI.
- **Database Management Systems:** PostgreSQL, MySQL, SQLite, MongoDB. **Machine Learning:** Supervised Learning, Unsupervised Learning, Neural Networks.
- **Development Tools:** Git/GitHub, Google Colab, Jira, Trello, Cursor.
- **Operating Systems & Scripting:** Linux, Windows.

Soft SKILLS:

- Problem Solving · Team Collaboration · Fast Learning · Adaptability
- Communication · Time Management · Attention to Detail · Analytical Thinking

Languages: Arabic (native), English (fluent), French (fluent).
