EXPERIENCE

Techvitis – Technical Analyst Intern | June 2026 – July 2026

- Completed structured IT training covering Linux administration, networking, cloud computing, Docker, CI/CD, and DevOps practices.
- Performed Linux administration, networking, AWS, and infrastructure support simulations.

IBC Solutions – Software Developer Trainee | Jan 2026 – Feb 2026

- Gained exposure to core banking concepts and enterprise software workflows.
- Worked with Finastra products including FCC and FTI.
- Completed assigned technical tasks and mini-projects under supervision.

PROJECTS

Estishara (Senior Project – Medical Platform)

Built a healthcare consultation platform for clinics in underserved regions of Lebanon using Next.js, Node.js, MongoDB, Firebase, GitHub Actions, and PayTabs. Implemented role-based access, AI-powered assistance, appointments, real-time chat, notifications, online payments, analytics dashboards, and CI/CD deployment.

POS & Inventory Management System (Freelance)

Developed a full-stack POS and inventory management system for a small business to manage products, customers, orders, invoices, and business analytics.

Additional Projects: YouTube Clone - MERN Note Application

CERTIFICATIONS

- Web Development Bootcamp – Udemy (May 2023 – Jul 2023)
- Introduction to Frontend Development – Meta (Coursera, Dec 2022 – Jan 2023)
