Front-End Engineer

EDUCATION:

- Beirut Arab University, B.E. in Computer Engineering 2019 – 2024
- Nouvelle Ecole Des Freres, Baccalaureate II in Life Sciences May 2019

WORK EXPERIENCE:

Mobile Arts, Front-End Developer – Beirut November 2025 – Present

Enterprise Web & Mobile Technology Solutions.

- Developed high-performance ReactJS websites with responsive UI and highly animated interfaces featuring smooth motion effects.
- Optimized application performance by applying React best practices, achieving average performance scores of **90+/100** while improving load times and reliability for high-traffic platforms.
- Implemented secure frontend practices, including input validation, secure API integration, authentication handling, and protection against vulnerabilities (e.g., XSS, data exposure).
- Improved SEO performance across multiple websites, raising SEO scores from around **40–50** to **85+/100**.

HoldCo Corp, ERP Full-Stack Developer – Beirut June 2025 – November 2025

Tech and Management Consulting company.

- Developed and customized ERPNext modules to meet specific client needs using Python and Frappe framework.
- Integrated ReactJS for building responsive and user-friendly frontend components connected to ERPNext backend via REST APIs.
- Collaborated closely with project managers and end-users to gather requirements and deliver tailored ERP solutions.
- Worked on customizing DocTypes and backend logic to build scalable, reliable features aligned with customer requirements.

On-Ramp Academy, Software Developer Training Program - Beirut April 2024 – August 2024

Implemented by Forward Mena in partnership with LIFE Lebanon

- Understood the inner workings of databases and their best practices
- Developed advanced and optimized web applications using ReactJS.
- Applied cybersecurity and writing secure applications.
- Gained proficiency in the architecture of modern software and the 101 of cloud computing.

Alpha Technology Group, Front-End Developer Intern – Beirut June 2023 – September 2023

Provides digital development services to clients and agencies.

- Converted Adobe XD files to HTML/CSS using best practices.
- Developed a ReactJS version of the admin panel using Web APIs.
- Applied CSS fixes to a client website regarding styling issues and bugs.

- Collaborated with the QA team for UI fixes resulting in an improved and consistent user experience.

Touch | The Leading Mobile Operator in Lebanon, Call Center Support - Beirut

August 2022 – April 2023

- Addressed and resolved over **12000** customer complaints professionally.
- Managed customer calls effectively and efficiently in a complex, fast-paced, and challenging call center environment.
- Used active listening skills to ensure that every customer's issue would come to a resolution.
