

Mohammad Jawad Sfeir

Junior Full-Stack Web Developer | PHP/Laravel | Unity 2D Game Developer

Computer Science graduate with hands-on experience in full-stack web development, capstone project support, and practical Unity 2D game development. Skilled in React, Node.js, ASP.NET/C#, PHP/Laravel, Python, SQL/NoSQL databases, and Unity C# gameplay systems, with strong proficiency in using AI tools to accelerate development. Able to turn requirements into clean interfaces, backend logic, database structures, and usable project deliverables.

Email: sfeirmhmd@gmail.com Phone: +961 71 427 114 Location: Beirut, Lebanon DOB: 28 June 2000

EDUCATION

Bachelor's Degree in Computer Science

Al-Maaref University, Lebanon

09/2020 - 02/2025

Relevant Courses

- Web Development
- Software Engineering
- Data Structures
- Database Systems
- Object-Oriented Programming
- Android Development

WORK EXPERIENCE

Freelance Web Developer / Capstone Project Support

Projefy (Team of 3 developers)

01/2025 - Present

- Built full-stack websites and apps for university students and small businesses from requirements to delivery.
- Implemented backend logic, database schemas, dashboards, and payment-related features for client projects.
- Supported projects using React, Node.js, ASP.NET/C#, PHP/Laravel, Python, MySQL, MongoDB, and Git workflows.

Private Programming Tutor

(Online)

- Tutored university students in programming, math, databases, OOP, algorithms, and exam preparation.
- Guided students through debugging, assignments, capstone logic, and practical code reviews.
- Helped learners strengthen C++, C#, PHP, Python, JavaScript, SQL, and Unity/C# fundamentals.

SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js

Backend: PHP, Laravel, Node.js, ASP.NET, C#

Databases: MySQL, SQL, MongoDB

Game Development: Unity 2D, C#, Animator, Physics2D, Tilemaps, Sprite Sheets

AI Tools: AI-Assisted Development, Prompt Engineering, LLM-Based Workflows

Tools & APIs: Git, Flutter, Visual Basic, Stripe API

Programming Languages: C++, C#, PHP, Python, Dart

PROJECTS

Ziko Restaurant Shop (04/2025 - 06/2025)

- Full-stack food delivery app with Stripe online payments, restaurant categories, menus, and order flow.
- Built a multi-vendor structure for restaurants, products, and customer-facing ordering.

MuConnect (Capstone Project) (10/2024 - 01/2025)

- Real-time group chat application for university students with course registration, quizzes, events, and services.
- Designed database-backed features for student communication and academic workflows.

Unity 2D Game Development (Personal Projects)

- Built 2D gameplay systems in Unity using C#, Rigidbody2D, Animator, triggers, checkpoints, hazards, UI, and scenes.
- Prepared sprite sheets, animations, colliders, sound effects, and level objects for playable prototypes.
