SENIOR FULL STACK DEVELOPER

React.js | Next.js

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 10+ years of experience building enterprise applications, ERP systems, e-commerce platforms, financial solutions, and business management systems. Strong expertise in React.js, Next.js, TypeScript, Vue.js, .NET, PHP, REST APIs, and SQL databases. Proven track record of delivering scalable software solutions, modernizing legacy applications, improving system performance, and collaborating with cross-functional teams to deliver high-quality products. Experienced in Agile development, software architecture, code reviews, and performance optimization.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vue.js, TypeScript, Material UI, Tailwind CSS, React Hooks

Backend: .NET, PHP, Node.js, REST APIs, MVC

Databases: MySQL, SQL Server

Mobile: React Native

Tools: Git, GitHub, Jira, Postman

Methodologies: Code Review, Software Testing, Performance Optimization

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

Arabian Construction Company

Mar 2026 – Present

- Designed and developed a Tender Management System using React.js and .NET.
- Built scalable frontend and backend solutions for tender creation, tracking, reporting, and workflow management.
- Developed REST APIs, business logic, and database integrations.

- Collaborated with stakeholders to gather requirements and deliver technical solutions.
- Improved operational efficiency through workflow automation.

Frontend Developer

Supply

Mar 2026 – Present

- Developed an Admin Portal for an e-commerce platform using Vue.js and TypeScript.
- Built reusable UI components and integrated REST APIs.
- Improved application maintainability through clean architecture and modular development.
- Worked closely with backend and mobile teams to deliver reliable software solutions.

Frontend Developer

SoftMachine

Nov 2023 – Jan 2026

- Developed and maintained ERP system modules using React.js, Next.js, TypeScript, and Material UI.
- Built scalable user interfaces for Finance, Inventory, Procurement, and Operations modules.
- Migrated legacy applications to React.js and Next.js.
- Developed reusable components to improve development efficiency and consistency.
- Integrated banking and financial solutions to support secure transaction processing.
- Improved application performance and user experience.
- Participated in code reviews, architecture discussions, and Agile development processes.
- Collaborated with business analysts and stakeholders to deliver enterprise software solutions.

Full Stack Developer

Ishtari

Mar 2020 – Nov 2023

- Developed backend systems using PHP for inventory and order management.
- Built and maintained features for an e-commerce platform processing more than 30,000 orders per month.
- Developed a React-based barcode scanning application for warehouse operations.
- Led and mentored developers while maintaining coding standards.
- Migrated frontend applications to Next.js and Tailwind CSS.
- Improved workflow automation and operational efficiency.

Software Developer

Creative Ray & Freelance

Jan 2017 – Mar 2020

- Developed educational and business management platforms.
- Designed scalable web applications and system architectures.
- Performed debugging, testing, and performance optimization.
- Collaborated with clients and stakeholders to define business requirements.
- Produced technical documentation and system specifications.

Software Engineer

Techno New

Jul 2014 – Dec 2016

- Designed and implemented surveillance and telecommunications solutions.
- Built reliable system architectures and supported deployments.
- Collaborated with technical teams to deliver customized client solutions.

KEY PROJECTS

ERP System

- Developed enterprise ERP modules including Finance, Inventory, Procurement, and Operations.
- Built reusable React.js components and integrated REST APIs.
- Improved usability, performance, and maintainability of business-critical applications.

Tender Management System

- Designed and developed a complete tender management platform using React.js and .NET web Api.
- Implemented tracking, reporting, workflow automation, and approval processes.

E-Commerce Platform

- Developed inventory management and order tracking solutions.
- Supported a platform processing over 30,000 orders monthly.

EDUCATION

Master's Degree in Computer and Communication Engineering

Arts, Sciences & Technology University (AUL)

2014 – 2016

Bachelor's Degree in Computer and Communication Engineering

Arts, Sciences & Technology University (AUL)

2011 – 2014
