Portfolio: [Google Drive Portfolio](#)

PROFESSIONAL SUMMARY

Ambitious and driven Computer Science student targeting a software or mobile development internship. Combines foundational academic knowledge in object-oriented programming and computer networking with intensive, practical self-directed learning in cross-platform mobile frameworks. A creative tech enthusiast with proven entrepreneurial initiative, utilizing cutting-edge AI production pipelines to deliver high-quality media assets for brands. Strong communicator and team leader with a multi-year background in organizing group logistics and leading collaborative projects.

EDUCATION

Modern University for Business and Science

Expected 2029

Bachelor of Science in Computer Science (1st Year)

- Core Coursework:** Software Architecture & Logic with C#, Computer Networking, Fundamentals of IP Addressing & Routing, Algorithm Design.

Udemy Professional Development

2026

Complete Mobile Application Development Masterclass

- Acquired robust practical competencies in cross-platform mobile architecture and state management using the Dart language.
- Designed responsive mobile graphical user interfaces, managing data flow and application life-cycles through hands-on development exercises.

TECHNICAL SKILLS

Languages:	C#, Dart, JavaScript, HTML5, CSS3
Frameworks & Tools:	Mobile App Design (Flutter/Dart Ecosystem), Cross-Platform Deployment, Git/GitHub Basics
AI & Creative Tech:	Advanced Prompt Engineering, Generative AI Architectures (Kling AI, OpenArt), CapCut, Cinematic Video Generation
Core Competencies:	Object-Oriented Programming (OOP), Network Topology, Team Leadership, Technical Communication, Rapid Problem Solving

PROJECTS & VENTURES

Founder & Creative Lead

2026 – Present

AI Modeling & Content Agency

- Launched a digital venture engineering advanced, precise multi-step AI prompts to produce commercial-grade visual assets and promotional video clips for apparel brands.
- Maintained high visual and structural consistency across generative frames using tools like Kling AI and OpenArt.
- Curated a highly organized professional digital asset portfolio mapping creative concepts to finished marketing deliverables.

Director & Technical Producer

2026

Cinematic Short Film Project: "Lebanon Before and After"

- Conceptualized, scripted, and structured a compelling 7-minute narrative short film leveraging advanced generative AI pipelines.
- Translated abstract narrative beats into detailed storyboards, implementing strict lighting and scene consistency throughout production.

Frontend Web Developer

2026

Responsive Gym Membership Web Application

- Engineered a fully functional, responsive 5-page frontend website using vanilla HTML5, CSS3, and JavaScript.
- Implemented client-side logic utilizing browser local storage to securely manage dynamic user interface state transformations and theme persistence without requiring back-end infrastructure.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Squad Leader / Active Member

2022 – Present

Scouts Association of Lebanon

- **Team Leadership:** Promoted to Squad Leader after 3 years of active membership; directly guide, mentor, and coordinate weekly training schedules and activities for youth groups.
- **Logistics & Safety:** Direct operational planning and dynamic troubleshooting for outdoor camping expeditions and community service initiatives, adapting smoothly to unexpected field conditions.
- **Communication:** Present instructional concepts clearly to groups and manage coordination workflows between peer leadership teams and administrative directors.
