Full-Stack Developer | API Integration Specialist | End-to-End Solutions

Software Engineer | Interactive UI Specialist

SUMMARY

Motivated Full-Stack Developer with a Bachelor's Degree in Computer Science and hands-on experience in building user-centered web applications. Strong experience supporting comprehensive digital projects, bridging front-end aesthetics with robust back-end logic using React, .NET, and SQL through effective collaboration across development teams. Brings a solid foundation in responsive design, delivering highly functional software solutions while consistently driving system performance and improving the user experience.

CORE COMPETENCIES

Full-Stack Development, UI/UX Design, Front-End Development, Back-End Logic, Database Management, Content Strategy, Visual Storytelling, Stakeholder Management, Cross-Functional Collaboration, Technical Problem-Solving.

PROFESSIONAL EXPERIENCE

Full-Stack Developer and UI/UX Designer | Freelance

January 2026 – Present

- Experienced in managing the end-to-end development lifecycle of web applications using React, .NET, and SQL, while collaborating directly with clients to deliver responsive, user-centered digital solutions.

UI/UX Developer Intern | Oigetit

March 2026 – April 2026

- Designed interactive Figma prototypes, implementing responsive React components, and collaborating with cross-functional teams to translate wireframes into optimized, user-centric web interfaces.

ITC Academic Assistant (Part-Time) | AOU

October 2025 – January 2026

- Supported daily academic operations by managing complex data sets in Excel, executing precise grade calculations, and implementing advanced formulas to ensure data integrity.

Web Development Intern | Ogero

August 2024 – September 2024

- Gained practical experience in modern JavaScript programming and corporate data management, working alongside senior development teams to test and debug internal web applications.

PROJECTS

Aura (E-commerce Platform)

June 2026

- Engineered a modern e-commerce application for apparel, integrating an intuitive administrative dashboard with full CRUD capabilities that enables the store owner to dynamically manage, add, and update clothing inventory.
- Technologies Used: React, .NET, SQL, CSS, Tailwind CSS.

Interior Design Website

April 2026

- Designed and developed a dynamic portfolio website for interior design, featuring a custom administrative dashboard that empowers the client to seamlessly add, edit, or delete design projects and media assets in real time.
- Technologies Used: React, .NET, SQL, CSS, Tailwind CSS.

StudyHub and StudentCareer

May 2026

- Conceived and built a comprehensive, student-focused web application for academic and career support, integrating the Gemini API to deliver intelligent, real-time study assistance while utilizing Firebase for secure user authentication and dynamic live data storage.
- Technologies Used: React, Firebase, Gemini API.

Oigetit News (AI News App)

March 2026

- Designed and developed an AI-driven news credibility platform, leading the end-to-end UI/UX design and front-end engineering to translate complex reliability scores into intuitive, highly responsive user components.
- Technologies Used: React, Tailwind CSS, Figma.

Personal Brand Portfolio Websites

February 2026

- Developed a series of responsive portfolio websites featuring custom aesthetic themes and highly interactive UI elements driven by React state and hooks, supported by a structured .NET back-end architecture.
- Technologies Used: React, .NET, CSS3.

EDUCATION

Bachelor's Degree in Computer Science (Dual Degree) | The Open University (UK) & Arab Open University (Lebanon)

GPA: 3.7/4.0

December 2025

SKILLS

TECHNICAL SKILLS

- Programming Languages: JavaScript, TypeScript, Java, Python
- Web Development: React, HTML5, CSS3
- Back-End & Databases: .NET, SQL, Firebase, MongoDB, JSON
- UI/UX Design: Figma, Wireframing, Prototyping, Responsive Design
- Tools & Practices: Git, GitHub, REST APIs
- Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP)

SOFT SKILLS

- Communication, Public Speaking, Cross-Functional Collaboration, Team Collaboration, International Teamwork, Interpersonal Skills, Problem Solving, Analytical Thinking, Creativity, Attention to Detail, Adaptability, Time Management, Organizational Skills, Multitasking, Initiative, Reliability

LANGUAGES

Arabic (Native), **English** (Professional Working Proficiency).
