

Heba Syijari

Software Engineer | Front-end developer (React.js | Next.js)

Aleppo, Syria • +963 952457853 • syijari.heba@gmail.com

[My-Portfolio](#) • [LinkedIn](#) • [GitHub](#)

Software Engineer skilled in **ReactJS**, **Next.js**, and **TypeScript**, specializing in scalable, user-centric web applications. Holds a **Bachelor's Degree in Informatics Engineering** with hands-on experience in modern web development. Currently pursuing a **Master's degree in Artificial Intelligence**. Possesses foundational back-end knowledge (e.g., **Node.js**) and a proven ability to quickly learn new tools. Passionate about solving challenges, delivering cutting-edge solutions, and continuous skill growth.

EDUCATION

Master's degree in Artificial Intelligence
Aleppo University, Syria

May 2025 – Present

Bachelor's Degree Informatics Engineering (Artificial Intelligence)
Aleppo University, Syria – Grade 82.4%

Sep 2019 – Sep 2024

WORK EXPERIENCE

Frontend Developer & AI Engineer

Vitronic – UAE, Dubai, Remote (Contract)

Dec 2025 – Present

Technologies used: React 19, TypeScript, Vite, TanStack Query, Tailwind CSS, Radix UI, CASL, Formik, Yup, i18next, Docker, Big Data, Spark, Delta Lake, MinIO, Trino, Airflow, Mage AI.

- **ESP:** Designed automated ETL pipelines with schema evolution, deduplication, and SQL query-in-place analytics, plus a no-code platform UI for pipeline authoring, scheduling, and monitoring.
- **Oyoon:** Dubai Police Centralized Surveillance & Analytics Platform
Developed a bilingual (EN/AR) web application with public informational pages and a secure admin dashboard. The platform turns visual data into actionable intelligence, with RBAC, master data management, and integrated analytics including filters, charts, and REST APIs. [\[Project\]](#)

Frontend Developer

OONA – UAE, Dubai, Remote (Full-Time)

May 2025 – Present

Technologies used: React 19, Next.js, TypeScript, Vite, Monorepo, Micro-Frontends, TanStack Query, Tailwind CSS, Radix UI, OIDC, CASL, Formik, Yup, i18next, dnd-kit, TipTap.

- **OONA Core:** Worked on a unified business and HR platform with flexible, dynamic solutions.
 - Implemented secure OIDC authentication and role-based access.
 - Added API-driven dynamic routing with backend-defined page URLs.
 - Developed dynamic themes, colors, layouts, and branding configuration.
 - Created an advanced Form Builder with drag-and-drop, resizable components, and dynamic properties. [\[Project\]](#) [\[Website\]](#)

Frontend Developer

Sanad – Turkey, Hatay, Remote (FullTime)

Jan 2025 – Nov 2025

- **Sanad Bank:** Developed and maintained a Next.js and PWA administrative platform for 6,580+ users, improving efficiency and user experience while managing financial transfers and investments through secure, scalable operations. [\[Project\]](#)

React Native Developer

Freelance – Remote

Jul 2024 – Dec 2024

Technologies Used: React Native, Expo, TanStack Query

- **Sadiq**: Developed a user-friendly mobile application for service discovery, which onboarded 1,000+ users in the first month, enabling them to search, communicate with service providers, and share experiences through ratings and reviews. *[Project]*

Software Engineer

Innovura – KSA, Riyadh, Remote (Full-Time)

Jan 2023 – Nov 2024

Technologies used: React, Redux Toolkit, TanStack Query, Tailwind CSS, React-Hook-Form, Zod, i18next, Atlassian, Jira Cloud Developer, Forge, Bitbucket. *[Recommendation]*

- **CodeAI**: Developed an intelligent code scanning tool integrated into Git, automating the code review process within Jira. *[Project]*
- **IdeaPortal**: Built a user-friendly platform for idea sharing, discussions, and voting, improving user interaction. *[Project]*
- **Multi Project Customfield**: Developed a "Multi Picker" feature for Jira Cloud, allowing users to reference multiple projects in a single custom field. *[MarketPlace]*

SKILLS

- **Frontend**: JavaScript, TypeScript, ReactJS, React Hooks, Next.js, Vite, React Native, Redux Toolkit, Zustand, TanStack Query, Monorepo, Micro-Frontends, Tailwind CSS, Shadcn UI.
- **Backend**: NodeJS, ExpressJS, Mongoose, Databases, RESTful APIs, Redis.
- **AI/ML & Data Science**: Hands-on experience with OpenAI API (GPT-4, Assistants API), AI/ML concepts, Deep Learning, Computer Vision, Image Processing (OpenCV), TensorFlow, PyTorch, Scikit-Learn, NumPy, Pandas, Apache Spark (Big Data), and Python.
- **Tools & Methodologies**: Git, Jira, Figma, Clean Architecture, Design System, Clean Code, CI/CD basics, Linux basics, Problem Solving, Systems Analysis.
- **Soft Skills**: Deep Work, Time Management, Teamwork, Analytical Skills, Mentoring.

LANGUAGES

Arabic (Native), English (B2)

CERTIFICATES

ACPC – Problem solving *[Certificate]*

Udacity – Full Stack Developer *[Certificate]*

Coursera – Machine Learning *[Certificate]*

Atlassian – Jira Fundamentals Badge *[Certificate]*

VOLUNTEERING

Rushd *[Website]*

Mar 2026 – Present

I mentor in Software Engineering, guiding students in technical and career development.

Blue Bits *[Profile]*

Mar 2023 – Aug 2024

I write lectures and proofread them for the help of my colleagues at the university. *[Recommendation]*
