

JIHAD AHMAD YAGHI

Full-Stack Developer

Tripoli, Lebanon | +961 81 670 212 | jihadyaghie@gmail.com | LinkedIn: linkedin.com/in/jihad-yaghie-0aaa28347 | GitHub: github.com/jihadyaghi

PROFESSIONAL SUMMARY

Fresh Graduate Full-Stack Developer with hands-on experience in building and deploying web and mobile applications through academic, personal, and freelance projects. Skilled in React.js, Node.js, RESTful APIs, MySQL, authentication, responsive UI development, and mobile app development using Flutter and Dart. Completed multiple projects, including GoTaxi, yaghiMarket, mobile applications, and business management systems. Passionate about developing clean, user-friendly, and scalable applications, with strong motivation to learn, grow, and contribute in a professional software development environment.

TECHNICAL SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+), Java, Dart, Node.js
- Frameworks & Libraries: React.js, Express.js, .NET Framework, Flutter, Tailwind CSS, Bootstrap
- Databases: MySQL, MongoDB
- Backend & APIs: RESTful APIs, API Integration, JWT Authentication, Role-Based Access Control (RBAC), CRUD Operations, MVC Architecture
- Cloud & DevOps: Web Hosting, Deployment, Git, GitHub, Version Control, Environment Configuration
- Security: Authentication & Authorization, Password Hashing, Secure API Handling, Basic Web Security Best Practices
- Tools: VS Code, Postman, Chrome DevTools

EDUCATION

Bachelor of Science in Computer Science | Lebanese International University

Graduated June 2026 | GPA: 3.20 / 4.00

KEY PROJECTS

El Deek Restaurant Menu Website - Freelance Project

Technologies: React.js, Tailwind CSS, JavaScript, Vercel, WhatsApp Integration

- Developed and deployed a responsive Arabic RTL restaurant menu website for a real freelance client.
- Built menu categories, product images, pricing options, search, filtering, and a mobile-friendly user interface.
- Implemented a frontend cart system with quantity updates, customer notes, total price calculation, and order review.
- Integrated WhatsApp ordering to send selected items and customer details directly to the restaurant.

Baladiyati - Full-Stack Smart Municipal Services Platform

Technologies: Flutter, React.js, Node.js, Express.js, MySQL, JWT, bcrypt

- Developed a full-stack municipal services platform connecting citizens, staff, and admins through web and mobile interfaces.
- Built a Flutter mobile app for document requests, issue reporting, appointments, proposals, announcements, and waste schedules.
- Created RESTful APIs using Node.js, Express.js, and MySQL with secure JWT authentication and bcrypt password hashing.
- Implemented role-based access and admin/staff dashboards to manage requests, reports, appointments, and system data.

GoTaxi - Full-Stack Taxi Booking Platform

Technologies: React.js, Node.js, Express.js, MySQL, Tailwind CSS, bcrypt

- Developed a full-stack taxi booking platform connecting users, drivers, and admins.
- Built a responsive React.js frontend with Tailwind CSS and a clean component-based structure.
- Created RESTful APIs for bookings, driver applications, authentication, users, and admin operations.
- Implemented secure authentication, role-based access, and an admin dashboard for approving or rejecting driver applications.

UniTaxi - Full-Stack Mobile Ride Booking App

Technologies: Flutter, Node.js, Express.js, MySQL, bcrypt

- Developed a mobile ride booking application for university students, drivers, and admins.
- Built a Flutter mobile app with booking, profile, settings, and ride management screens.
- Created RESTful APIs using Node.js and Express.js for authentication, trips, users, drivers, and admin features.
- Designed a MySQL database and implemented a complete trip workflow from pending to approved, assigned, and completed.

Closetly - Full-Stack E-Commerce Clothing Store

Technologies: React.js, Tailwind CSS, Node.js, Express.js, Supabase PostgreSQL, JWT, bcrypt, Render, Vercel

- Built and deployed a full-stack e-commerce clothing store with authentication, product browsing, cart, checkout, and orders.
- Developed a responsive React.js frontend with reusable components and modern e-commerce pages.
- Created RESTful APIs for authentication, products, orders, users, and admin management.
- Implemented JWT authentication, role-based access, cash-on-delivery checkout, and deployment using Vercel and Render.
