

Ahmad Ghzayel

Full Stack Web Developer

ahmad.ghzayel.me@gmail.com • +961 81 501 749 • [GitHub](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable web, mobile, and ERP solutions using React, Next.js, Laravel, Frappe, and Odoo. Experienced in designing RESTful APIs, integrating third-party services, and delivering end-to-end applications. Passionate about clean architecture, performance optimization, and creating business-focused software solutions.

EXPERIENCE

Full Stack Developer | [Keeways](#)

Jul 2025 – Present

- Build cross-platform mobile and web applications using React Native, Next.js, and Vue.js.
- Develop and customize ERP solutions on Frappe and Odoo, tailoring modules to client business workflows.
- Design and maintain backend services and RESTful APIs with Laravel, working across PostgreSQL and MongoDB databases.
- Collaborate within an agile team to deliver scalable, production-ready features end to end.

Frontend Developer Intern | [Brainket](#)

Jan 2025 – Feb 2025

- Developed responsive web applications using Next.js, Integrated RESTful APIs for dynamic data handling.

Backend Developer Intern | [IDS](#)

Nov 2023 – Jan 2024

- Built RESTful APIs for authentication and data manipulation using PHP.
- Developed frontend components with React.js, ensuring seamless integration with the backend.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, Vue.js, JavaScript, Tailwind CSS, HTML, CSS

Backend: Laravel, PHP, REST APIs, Postman, Swagger

Databases: MySQL, PostgreSQL, MongoDB, Neondb

ERP: Frappe, Odoo, ERPnext

Tools: Git, GitHub, Bitbucket

CERTIFICATIONS

- Odoo Certification
- Getting Started with Python for Data Science – Zaka.ai (Sep 2024)

EDUCATION

Bachelor of Computer Science | [Lebanese International University](#)

2021 – 2024

PROJECTS

- **ERP Project Monitoring & Reporting Platform**

Developed a project monitoring and evaluation platform for managing projects, indicators, stakeholders, beneficiaries, donors, and reporting workflows. Built dynamic data tables, Excel export functionality, custom dashboards, and performance-tracking interfaces to support project analysis and reporting.

Tech Stack: Frappe, ERPNext, Vue.js, AG Grid, Python, PostgreSQL

- **E-commerce Platform**

Built a full-featured e-commerce application with secure user authentication, product search and filtering, Stripe payment integration, Google Maps address selection, and an administrative dashboard for managing products, orders, and customers

Tech Stack: Laravel, React.js, MySQL, Stripe
