

Wouroud El Khaldi

Mid-Senior Full Stack Software Engineer

+961 81 877 217 | wouroudelkhaldi@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Software Engineer with over two years of experience building scalable web applications, financial systems, and intuitive user interfaces. Expertise spans the MERN stack, PHP/Laravel, and both relational and NoSQL databases. Proven record of architecting secure back-end systems, integrating complex payment gateways, and implementing modern authentication protocols. Skilled in Agile methodologies and cross-functional collaboration to optimize system performance and deliver exceptional digital experiences.

WORK EXPERIENCE

Sahme Trading (formerly DTT) - Tripoli, Lebanon

Mid-Senior Full Stack Software Engineer | May 2026 - Present (promoted)

Full Stack Software Engineer | May 2024 - May 2026

- Develop dynamic CRMs and client portals for Forex, Crypto, and CFD markets to boost trading-platform engagement by ~25%.
- Redesign the client portal's mobile UI into a modern, responsive, user-friendly experience for stronger mobile engagement.
- Integrate enterprise trading platforms (MetaTrader 4/5, ArkTrader, Vertex Trading, TradeLocker) for seamless, real-time transactions.
- Build and manage robust payment infrastructure across 25+ Payment Service Providers (PSPs), including Stripe, Binance Pay, BOF Pay, Global Pay, and Whish Money.
- Deploy KYC/AML compliance solutions (Sumsub, Koincade, Shufti Pro) to strengthen user verification and reduce manual review time by ~40%.
- Architect full-stack solutions and lead QA testing while ensuring strict regulatory compliance.

Full Stack Developer - Life Sculptor

Remote | Feb 2024 - Apr 2024

- Led end-to-end website development and UI/UX design in Figma, producing intuitive interfaces that improved user retention by ~20%.
- Engineered secure RESTful back-end architectures using Node.js, Express.js, and MongoDB.
- Implemented modern authentication frameworks (Clerk, JWT) to safeguard user data and prevent breaches.
- Optimized back-end data fetching and API calls with Axios, cutting average load times by ~35%.
- Delivered a responsive user dashboard with the front-end team, earning high client satisfaction in beta testing.

Full Stack Developer & UI/UX Designer (Internship) - Develb

Remote | Jan 2024 - Mar 2024

- Designed and prototyped a user-centric interface for a community-driven web application.
- Developed responsive front-end components and integrated dynamic data streams to improve site interactivity.
- Structured scalable database schemas and built supporting back-end microservices.

Full Stack Developer Trainee - Codi Tech

Tripoli, Lebanon | Aug 2023 - Mar 2024

- Built and deployed 5 MERN-stack web applications, meeting 100% of sprint deadlines.
- Followed full software development life cycle (SDLC) practices, ensuring code quality and Agile adherence.
