WORK EXPERIENCE

Full Stack Developer

Echo valley | Dec 2023 - Present

- Full-Stack Developer specializing in dynamic, user-centered front-end experiences and scalable back-end systems. Strong focus on building responsive and interactive applications using React Native, Next.js, and Redux Toolkit for efficient state management. Experienced in backend frameworks like Nest.js, Node.js, and Express.js, with expertise in database management through MongoDB and SQL, and ORM with Sequelize. Skilled in designing cross-platform mobile applications and delivering seamless, performant user experiences across devices.

Full Stack Developer

Passion LB | Apr 2023 - Jan 2024 | Freelancer

- Full-Stack Developer with a strong emphasis on crafting intuitive and responsive front-end experiences. Proficient in HTML, CSS, and JavaScript, with hands-on expertise in React and Next.js, focusing on building user-friendly and visually engaging interfaces that enhance the user experience.
- On the back end, skilled in designing and optimizing robust server-side components using Node.js, Express.js, and Nest.js. Experienced with databases like MySQL, MongoDB, and PostgreSQL, and capable of designing efficient database schemas to support seamless application functionality. Driven by a passion for cohesive, high-performance applications that deliver an exceptional experience across both front-end and back-end technologies.

Full Stack Developer

Pro-Solutions | Sep 2021 - Apr 2023

- Full-Stack Developer with a keen focus on designing and implementing user-friendly, high-performance websites. Skilled in creating optimized check-out flows and interactive, dynamic interfaces that drive high traffic, maximize page views, and ensure an exceptional user experience. Developed responsive designs that deliver a seamless experience across all devices.
- Committed to writing clean, maintainable code and adhering to web development best practices, ensuring projects are not only functional but also scalable and easy to maintain. Thrives in fast-paced environments, adapts quickly to new technologies, and keeps up with industry trends to consistently deliver innovative, cutting-edge solutions.

Full Stack Developer

Freelance | March 2021 - Present

- My expertise is centered around front-end technologies, with a solid foundation in HTML, CSS, JavaScript, and frameworks like React.js and Next.js, enabling me to build responsive, user-friendly interfaces. I am passionate about creating seamless and intuitive user experiences, ensuring that the front-end is both functional and visually appealing. On the back end, I have experience with server-side scripting, databases, and server management, proficient in Node.js, Express.js, Nest.js, and working with databases such as MySQL, MongoDB, and PostgreSQL.
