PROFESSIONAL EXPERIENCE

Freelancer

- Maintained websites
- Implemented Stripe
- Worked with a development team
- Used AI tools to speed up code generation, debugging, documentation, and research.
- Made project designs
- Built several websites from scratch (MULTI-SAAS-WEBSITE/REALESTATE-WEBSITE...)
- Built a web Template website (React.jsx)

PROJECTS

AI Website Template Generator | [Live Demo](#)

Built an AI-focused full-stack web app that generates website template ideas and structured page blueprints. Implemented responsive React screens, generation flow, free-trial logic, and Stripe payment integration.

Tech: React, Vite, Tailwind CSS, Node.js/Express, MongoDB/Prisma, Stripe, Netlify

Digital Finds

Developed an e-commerce / marketplace platform with buyer, seller, and admin workflows.

Built product management, authentication, protected routes, checkout logic, and responsive storefront screens.

Tech: React, Node.js/Express, MongoDB/Prisma, Cloudinary, Stripe

NovaUI Store | [Live Demo](#)

Created a storefront concept for selling modern website and UI templates across multiple template categories.

Designed scalable product browsing, template presentation, and a responsive marketplace-style user experience.

Tech: React, Vite, Tailwind CSS, Node.js/Express, MongoDB, Netlify
