Summary

Motivated Full Stack Developer with hands-on experience in React.js and .NET development through two internships. Proficient in building RESTful APIs with ASP.NET Core, designing frontend interfaces with React and TypeScript, and containerizing applications with Docker. Currently developing a full-stack team task management system applying role-based access control and modern web technologies.

Experience

Backend Developer Intern

2025

WZTechno

Beirut, Lebanon

- Developed and consumed RESTful API endpoints supporting data retrieval and content management features
- Evaluated and compared AI-based speech recognition solutions to support automated transcription functionality
- Resolved critical bugs across multiple backend modules including scheduling and hierarchical data handling
- Contributed to integration testing and performed manual QA testing across the full application
- Developed a frontend UI component using React

Frontend Developer Intern

2023

Smartech

Beirut, Lebanon

- Built a React.js application from scratch featuring full CRUD operations across Posts, Tags, and Users modules
- Integrated REST APIs using Axios for real-time data fetching, creation, updating, and deletion
- Designed and implemented a responsive UI using Ant Design component library
- Delivered the project independently under technical supervision, demonstrating self-sufficiency and ability to learn on the job

Arabic Language Teacher

2015 – 2020

Sarafand Academy School

Sarafand, Lebanon

- Taught Arabic language to KG1 students over 5 years, delivering structured lesson plans and age-appropriate learning activities
- Developed strong communication, patience, and organizational skills managing young learners daily

PROJECTS

Team Task Management System | .NET 9, ASP.NET Core, React, TypeScript, PostgreSQL, Docker

- Building a full-stack team-based task management system with role-based access control for Admins, Managers, and Members
- Designing and implementing a RESTful Web API using ASP.NET Core and Entity Framework Core with PostgreSQL
- Developing a React and TypeScript frontend with component-based architecture, MUI component library, and type-safe API integration
- Containerizing the full application using Docker for consistent development and deployment environments

EDUCATION

Lebanese University, Saida

2024-2025

Master in Information Systems Technology and Science

Lebanese University, Saida

2021-2023

Bachelor in Business Computer Science

Al Wafaa Technical Institute, Sarafand

2012-2014

Technique Supérieure in MIS

Sarafand High School, Sarafand

2009-2011

Official Lebanese Baccalaureate

Skills

Languages: C#, JavaScript, TypeScript, SQL

Frameworks & Libraries: ASP.NET Core, React.js, Entity Framework Core, Ant Design, MUI, Axios

Databases: PostgreSQL

Tools & Platforms: Docker, Git, GitHub, Swagger, Cursor AI

Concepts: REST APIs, CRUD Operations, Role-Based Access Control, OOP, Dependency Injection

Languages

Arabic: Native

English: Intermediate
