Professional Summary

Motivated and detail-oriented Front-End Developer with a strong foundation in modern web development practices. Skilled in creating responsive, accessible, and user-focused web applications using clean design and efficient code. Experienced in full-stack training through real-world projects and passionate about using technology for education, innovation, and social impact.

Education

UNRWA-DigitalHub - Beirut, Lebanon

Oct 2025 – Dec 2025

Front-End Development Training

- Developed and maintained responsive web applications using React and Next.js •
- Followed Agile methodologies, including sprint planning, Jira task management, and retrospectives
- Applied SOLID principles and essential software design patterns in development workflows
- Implemented UX/UI best practices to enhance usability and user experience

Rafik Al Hariri University - Meshref, Lebanon

Oct 2022 – July 2025

Web development, User Interface Design & Advanced Web Development, Special Topics in Computer Science (React), Design & Social impact.

Training Experience

Full Stack Developer - Ogero, Online

June 2025 – July 2025

- **Tasks Accomplished:** Key tasks included Admin Console Front-End Development, Backend API with PostgreSQL, Secure Login API using JWT, and API Testing, contributing significantly to Ogero's internal tools and projects.
- **Acquired Skills:** Skills gained include React.js, Node.js, Express, PostgreSQL, API security, and effective teamwork, enhancing both technical and professional capabilities.

Youth Academy Training – DCA & Brotherhood Association for Social Cultural Work, Tyre, Onsite

Aug 2025 – Present

- **Ongoing Tasks:** Participating in a six-month program focused on vocational qualification, life skills development, and psychosocial support.
- **Skills in Progress:** Enhancing communication, teamwork, problem-solving, and professional readiness through interactive workshops and hands-on activities.

Entrepreneurship Training – ANERA & UNRWA, Seblin, Onsite

May 2024 – July 2024

- **Tasks Accomplished:** Completed a multi-level entrepreneurship training program that taught how to plan, launch, and manage a business effectively. Advanced to the final level.
- **Acquired Skills:** Gained strong skills in business planning, project management, communication, and leadership — developing a solid understanding of entrepreneurship and startup creation.

Project Experience

UNRWA Edu: Online Educational Platform

- Developed a web-based educational platform that provides free private and remedial online classes for UNRWA students. The platform connects students with qualified Palestinian teachers, enables course selection, teacher booking, learning material access, and supports remote teaching opportunities, with scalability toward a future mobile application.

Smart Nutrition Tracker: Food Scan App

- Developed a mobile application that enables users to track their meals by scanning food with their camera, instantly providing detailed nutrition facts and health insights. Built using machine learning-based food recognition.

Toters: Food Delivery Web Application

- Developed a responsive and interactive food delivery website using React, implementing modern front-end practices, reusable components, and state management. Focused on user experience, seamless navigation, and mobile-first design.

Candle Studio: E-Commerce Website

- Designed a modern and user-friendly website for a well-known candle shop using Figma, focusing on aesthetics, branding consistency, and social impact.

Gaza Organization: Donation & Volunteering Platform

- Built a responsive website using HTML, CSS, and JavaScript to support donations, scholarships, and volunteering initiatives for Gaza. Designed user-friendly pages for donors and volunteers, ensuring clear navigation and an engaging layout that promotes community support and social impact.

Professional Experience

URM Enroll | Frontend Developer & Team Lead, Online

Dec 2025 – Present

- Designed and developed the full website UI, including dashboards (Admin, Partner, Applicant) and public pages, using Next.js, React, and Tailwind CSS.
- Improved UI/UX and built key features like application workflows and notifications.
- Integrated frontend with backend APIs and collaborated with the team on product enhancements.
- Led the frontend team by coordinating tasks, reviewing implementations, assigning responsibilities, and ensuring consistent design and development standards across the platform.
- Worked closely with cross-functional team members to manage feature delivery, resolve frontend issues, and maintain overall product quality.

CO-DE Program & BrightChamps, Hybrid

2024 - 2025

- Taught children Scratch programming online.
- Fostered creativity and problem-solving skills.

Tools & Languages: *HTML, CSS, JavaScript, TypeScript, React, Next.js, Node.js, Figma, Git/GitHub, JSON, PHP*

Database Management: MySQL

Programming & Development: Front-end development using modern frameworks (**React, Next.js**), implementing responsive, accessible, and user-friendly designs, and managing projects with **version control** (Git/GitHub)

Communication: Strong written and verbal communication skills

Certificates Received

CISCO Networking – Cisco (all 4 levels).

Full stack training – Ogero

Scratch training – CO-DE
