Full Stack Developer | .NET | C# | Angular

PROFILE

Full Stack Developer with a strong foundation in building scalable web applications using the **Angular** and **.NET (C#)** ecosystem. Proven ability to bridge the gap between front-end aesthetics and back-end logic, delivering clean, maintainable code across the full software development lifecycle. With a focus on **ASP.NET Core API** development and modern UI frameworks, I excel at transforming complex requirements into functional, user-centric solutions. I am committed to continuous learning, optimizing system performance, and contributing to high-velocity engineering teams.

PROFESSIONAL EXPERIENCE

APERTURE UK <i>Full Stack Developer</i>	Beirut, Lebanon <i>Oct 2025 – Present</i>
- Build and maintain web features using Angular for the frontend and ASP.NET Core (C#) for the back-end API. - Work on the development of the web app for insurance brokers and a central Broker Portal to handle quotes and policies. - Active member of a cross-functional team, participating in daily meetings and using Azure DevOps for version control and deployment.	
KATSH SERVICES <i>Full Stack Intern</i>	Baabda, Lebanon <i>Aug 2025 – Oct 2025</i>
- Focused on learning Angular framework for front-end development and .NET Core for building back-end services, including CRUD operations, REST APIs, SQL SERVER. - Participated in team discussions to understand business requirements and how they translate into technical tasks.	

PROJECTS

- CV Catalyst <i>React-Based Website for creating resumes.</i>	2025
