---

## EDUCATION

### Beirut Arab University

Bachelor of Science in Computer Science (2021 – 2025)

---

## Professional Summary

Computer Science graduate with strong skills in Python, Java, and backend development. Experienced in building web applications and managing databases using modern tools such as Supabase. Proven ability to handle large datasets, improve data accuracy, and develop efficient solutions. Passionate about creating scalable systems and continuously improving technical expertise.

---

## Skills

- **Languages:** Python, Java, C++
  - **Web Technologies:** HTML, CSS, JavaScript
  - **Databases:** SQL, Supabase
  - **Tools & Platforms:** Git, Excel, VS Code
  - **Core Knowledge:** Data Structures, Algorithms, OOP, SDLC
  - **Problem-solving, Analytical thinking, Teamwork, Attention to detail, Adaptability, Time management**
- 

## Professional Experience

### Senior Project: Team leader and senior developer (2024-2025)

- Create and manage website and behaviorism of application UnitedHope, presented as a final year project.
- Developed Backend application using Supabase.
- Contributed to the overall completion of the project.

### Task Manager Web App

- Built a web application to manage and track daily tasks
- Implemented user authentication and database integration

### Sales Data Analysis Dashboard

- Created Excel dashboard to analyze sales and performance

- Generated insights using structured datasets

### **Student Management System**

- Developed Java system to manage student records
- Implemented CRUD operations with database integration

### **Freelance Junior Developer (Remote)**

#### **Self-employed | 2024 – Present**

- Developed small web applications and scripts for personal and freelance use
- Built and tested backend functionalities using Python
- Worked with databases to store and manage structured data
- Continuously improved coding and problem-solving skills through real-world practice

### **Al Iman Hospital Laboratory: Data Entry Operator (Aug 2023-Jan2024)**

#### ***Database and Data Management***

- Managed and maintained structured databases with high accuracy
- Cleaned and validated datasets to ensure data integrity
- Performed data entry and retrieval for operational reporting
- Retrieved requested data from databases and electronic files promptly.

### **Al Amana Hypermarket: Data Entry Operator (Jan 2023- Jun 2023)**

- Processed and digitized large volumes of data
- Reviewed and corrected data to reduce errors
- Supported departments with administrative and data tasks

---

## **Languages**

- Fluent in English and Arabic
