Full-Stack Developer | Software Engineer | AI Integration and Automation

SUMMARY

Junior Full-Stack Developer with hands-on experience building modern web applications, AI-powered systems, and backend services for real business needs. Skilled in PHP, Laravel, JavaScript, Python, React, and Next.js, with practical experience in AI agents, vector databases, and cloud hosting. Focused on building intelligent, user-friendly applications that solve real problems and deliver clear, consistent value to users, clients, and teams across different projects and industries.

CORE COMPETENCIES

Software Engineering, Web Development, Backend Architecture, Frontend Development, Database Design, System Optimization, API Integration, Artificial Intelligence, Cloud Hosting, Version Control.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer Intern | VioletPro

September 2025 – November 2025

- Built digital menu systems using Laravel, MySQL, and Vue.js, delivering fully functional applications that consistently met client requirements and specific business needs.
- Deployed custom content management solutions and responsive web applications from scratch, ensuring smooth performance across different devices, browsers, and screen sizes.
- Enhanced backend logic and overall system performance through careful code review, resulting in faster response times and significantly improved user experience.
- Managed version control and codebase structuring using Git and GitHub, maintaining well-organized repositories, and enabling smoother collaboration within the development team.

EDUCATION

Bachelor of Science in Computer Science | Lebanese International University (LIU) February 2026

TRAINING AND CERTIFICATES

CCNAv7: Introduction to Networks | Cisco Networking Academy

March 2024

CCNAv7: Switching, Routing, and Wireless Essentials | Cisco Networking Academy

August 2024

PROJECTS

AI-Powered Task Management System

May 2026

- Built a full-stack task management platform combining cloud-based AI agents with Retrieval-Augmented Generation to support smarter daily planning and decision-making through intelligent task assistance and automated recommendations.

- **Technologies Used: Frontend:** Next.js, **Backend:** Laravel, FastAPI, Python, RESTful APIs, **Database & Storage:** PostgreSQL, ChromaDB, **AI/LLM Technologies:** Ollama, Retrieval-Augmented Generation (RAG), AI Agents.

Full-Stack Delivery Management System (Senior Project)

January 2026

- Architected a multi-role delivery platform featuring global admin oversight and branch-specific controls. Integrated real-time tracking through Maps API and implemented secure delivery validation using QR codes and one-time passwords for reliable and accurate order confirmation.
- **Technologies Used: Frontend:** JavaScript, **Backend:** Laravel, PHP, RESTful APIs, **Database:** MySQL.

HabitFlow (Full-Stack Application)

November 2025

- Built a comprehensive habit-tracking tool to track and support users' daily habits consistency. Designed a relational database schema in MySQL to manage user data and track progress logs over an extended time.
- **Technologies Used: Frontend:** React, **Backend:** Node.js, Express.js, **Database:** MySQL.

AI Chatbot

May 2024

- Developed a functional chatbot using Python and the NLTK library for natural language processing. Focused on accurately interpreting user input, generating relevant contextual responses, and applying core techniques for conversational logic and text handling.
- **Technologies Used:** Python, NLTK.

SKILLS

Technical Skills: Frontend: React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, Bootstrap, SCSS.

Backend: Laravel, Node.js, Express.js, FastAPI, RESTful APIs.

Programming Languages: PHP, Java, Python, C++, JavaScript.

Databases & Vector Stores: MySQL, PostgreSQL, ChromaDB, MongoDB, PgVector.

AI & Machine Learning: AI Agents, RAG, Ollama, NLTK.

Tools & DevOps: Git, GitHub, Docker.

Soft Skills: Critical Thinking, Problem Solving, Teamwork, Adaptability, Attention to Detail, Fast Learner, Team Communication, Time Management, Analytical Thinking, Creativity.

LANGUAGES

Arabic (native), **English** (professional working proficiency), **French** (basic).
