Profile

"As a **Last year** Graphic design student with a solid foundation in design principles, typography, and digital media, I aim to deepen my expertise in visual communication and creative problem-solving. My goal is to apply my developing skills in design software and project management to contribute to innovative design projects, collaborate with peers and professionals, and further explore my passion for user-centered design.

I am eager to take on internships or design projects that challenge me to expand my technical abilities and design thinking, while preparing for a successful career in the graphic design industry."
