

HADI KAAFARANI

FULL-STACK WEB DEVELOPER | ADMINISTRATION & OPERATIONS

hadi_kaafarani98@outlook.com | +961 70 801 054 | Sour, Lebanon

PROFESSIONAL PROFILE

Full-stack web developer with practical experience building responsive, database-driven applications using Laravel, PHP, MySQL, Blade, JavaScript, and REST APIs. Experienced in admin dashboards, authentication, CRUD operations, product management, carts, and order workflows. Brings additional strengths in administration, customer service, IT instruction, data management, and operational coordination, including experience supporting teams of up to 80 staff.

CORE SKILLS

Backend Development: PHP, Laravel, REST APIs, MVC, CRUD

Frontend Development: HTML5, CSS3, JavaScript, Bootstrap, Blade

Database & Systems: MySQL, Microsoft Access, database-driven systems

Administration: Data management, scheduling, record keeping, customer service

Operations: Team coordination, workflow follow-up, task supervision

IT & Training: IT support, web development and database instruction

SELECTED DEVELOPMENT PROJECTS

E-commerce Platform | *Laravel, PHP, Blade, MySQL, Bootstrap*

Built product-management, shopping-cart, and order-management functionality for a database-driven e-commerce application.

Restaurant Management System | *Laravel, PHP, Blade, APIs, MySQL*

Developed customer ordering, cart, and table-booking features, plus an admin panel for menus, orders, payment status, and employees.

Student Management System | *Laravel, Blade, MySQL*

Created CRUD modules for students, teachers, courses, and payments using Laravel resource patterns.

Personal Portfolio Website | *HTML5, CSS3, Bootstrap, JavaScript*

Designed and developed a responsive portfolio website for desktop and mobile devices.
