

FARAH EL BANNA

JUNIOR DEVELOPER

Khraybi El Maten – Baabda District – Lebanon · +96171279066
farahel0banna@gmail.com · www.linkedin.com/in/farah-el-banna ·

Reliable and motivated fresh graduate, interested in the role of a Software Engineer, where I can utilize my analytical skills and knowledge acquired by pursuing my degree in Computer Engineering, to contribute to the organization's growth. Looking for a dynamic and progressive work environment where my skills are employed in the maximum way possible.

SKILLS

- React JS, jQuery, HTML, CSS
- Node JS express framework
- Programming languages (Java, C, JS, HTML, PHP, CSS)
- SQL and no-SQL databases (MySQL, MongoDB)
- Object-Oriented Programming
- Programming tools (VS code, android studio, NetBeans)
- Web and Android App Development
- Time management skills, meeting deadlines
- Team-work oriented, Collaborative

EXPERIENCE

03/2023 – 05/2023 CURRENT

DATA ANALYST VOLUNTEER – THE VOLUNTEER CIRCLE

- Collecting 1000 entries from various sites with different fields using web scraping techniques and tools.
- Writing a custom scraping bot using Python and implementing the bot to automatically collect and store data in Excel files.
- Cleaning and processing the collected data to ensure its accuracy, completeness, and consistency using data cleaning tools and techniques.
- Analyzing the data collected by writing models in Python and testing hypotheses to identify patterns, trends, and insights.

01/2023 – 03/2023

INTERN FRONTEND DEVELOPER - MONTYHOLDING

- Participated in a software development program as an intern.
- Worked collaboratively with a team using Jira for project management and GitLab for version control.
- Developed web applications using React and Redux.
- Utilized SCSS and Bootstrap to create responsive designs.
- Used MDB React and other third-party library packages to streamline development.
- Worked on a web builder that involved drag-and-drop components.
- Created a component library with customized components.
- Demonstrated the ability to showcase and export code.
- Developed a dashboard and adhered to design guidelines to ensure a consistent user experience.
- Collaborated with team members to build reusable components.
- Worked on an Excel file reader to form customized table and chart data.

09/2021 – 03/2022

FULL STACK DEVELOPER - THE CODE BEYOND

- Created a sophisticated Personal Blog website for learning purposes using React.js, Material UI, Express JS, and MongoDB to share knowledge among software developers.
- Created highly performant rest APIs.
- Implemented JWT for user authentication, roles, and authorization.
- Used Node mailer for notifying and communicating with users via email.
- Worked with another junior developer so we can learn and help each other.

03/2021 – 08/2021

CALL CENTER AGENT - OUMMAL VACCINATION NONPROFIT ORGANIZATION

- Managed about 100-120 inbound and outbound calls in a timely manner (under 5 min) during the Covid 19
- Vaccine campaign.
- Insured patients' credentials and issued reports case by case.
- Follow communication "scripts" when handling different topics for patients.
- Identify patients' needs, clarify information, research every issue, and provide solutions and/or alternatives.

EDUCATION

06/2020

COMPUTER ENGINEERING, LEBANESE INTERNATIONAL UNIVERSITY liu.edu.lb

An honor student with a GPA of 3.75/4. Developed multiple projects using SQL databases and different languages (Java, JS, NodeJS, HTML, CSS, XML, and PHP) to build apps and websites. To mention some: a school dashboard as a web platform with an admin page, an android to-do-list application, and my senior was an app that manages students' sitting during exams using barcodes to limit time loss and provide a stress-less environment for both students and instructors.

07/2015

LEBANESE HIGH SCHOOL DIPLOMA IN GENERAL SCIENCE, MARON ABOUD SECONDARY SCHOOL

ONLINE COURSES AND TRAINING

IT ESSENTIALS FROM GIL PROGRAM (UNICEF) IN PARTNERSHIP WITH DOT
<https://lebanon.dotrust.org/>

Helped me acquire knowledge in the hardware and the software parts of computers and resolve issues

NODE JS AWARDED BY GDG (GOOGLE DEVELOPER GROUP) IN LEBANON

Acquired programming skills using express JS framework, REST API, and no-SQL database

CREATIVE THINKING FROM GIL PROGRAM (UNICEF) IN PARTNERSHIP WITH THE NAWAYA NETWORK

It was an interactive program where we worked in groups and collaborated to come up with business ideas and actualize them

FLUTTER AWARDED BY GDG (GOOGLE DEVELOPER GROUP) IN LEBANON

Used Flutter framework as a cross-platform to build apps
