A Full-Stack Developer with five years of experience, skilled at delivering innovative solutions within a collaborative team environment. Seeking to leverage expertise in both front-end and back-end development to contribute effectively to dynamic projects.

EXPERIENCE

Full Stack Software Developer | Chedid Capital   *Mar 2022 - Present*

Collaborate on the development of multi-tenant Web and mobile applications using Angular, Xamarin Forms, MSSQL and .Net Core.

- Sustain the end-to-end development of an Angular-based web portal application, and a robust backend system powered by .NET Core and microservices architecture, increasing the overall system performance by 40%.
- Create and design pages within the insurance multi-tenant mobile application utilizing Xamarin Forms to enhance user engagement.
- Conduct comprehensive code reviews, providing constructive feedback to enhance code quality, maintainability, and performance while adhering to best practices and coding standards
- Establish and maintain CI/CD pipeline to optimize software development lifecycle for accelerated deployment, and higher quality releases.
- Collaborate efficiently with cross-functional team members, including Quality Assurance, Product Owners, and developers to deliver high-quality software products on schedule.

Full Stack Developer | Computer Technology & Services   *Jun 2021 - Mar 2022*

Collaborated on the development and maintenance of an ERP system and a web application, using .Net, SQL, React.js and MongoDB.

- Designed and implemented a robust ERP system, utilizing VB.Net, SQL, and Crystal Report technologies to enhance organizational efficiency.
- Created and implemented new APIs using Windows Communication Foundation (WCF) in C#, enhancing the functionality of the software.
- Tested and debugged the APIs to guarantee robustness, reliability, and optimal software performance.
- Successfully migrated existing codebase to the latest technologies and frameworks, ensuring compatibility, performance, and adherence to current industry standards.
- Monitored and updated the APIs based on user feedback and changing business requirements, demonstrating adaptability and commitment to improvement.

Software Developer | BlackBox AI   *Feb - Sep 2021*

Developed and administered 12 web applications, employing Pug HTML, Express.js, React.js and MongoDB.

- Utilized WebSockets and WebRTC technology to provide screen sharing, real-time audio and video communication.
- Implemented upload functionality for PDFs, leveraging PDF.js for PDF processing, to facilitate seamless data processing within web applications.
- Crafted and upheld a responsive user interface by employing Pug HTML, CSS, and React.js, ensuring seamless user experiences across various devices.
- Conducted thorough testing of both frontend and backend components using Jest, ensuring robustness and reliability of the application.

Full Stack Developer | Multiframes Digital & Online Agency   *Jun 2019 – Jan 2021*

Built and managed more than 10 mobile applications and websites, utilizing Ionic Angular, Xamarin Forms, .Net, SQL, PHP Zend and Laravel.
- Spearheaded the development of six mobile applications utilizing Ionic, Angular, and Xamarin Forms, ensuring high-quality and efficient cross-platform solutions.
- Developed and Implemented RESTful APIs to integrate frontend components with the backend service using Javascript, PHP Zend/ Laravel and .Net.
- Collaborated with UX/UI designers to ensure seamless user interface and experience.
- Optimized application performance through code refactoring and performance tuning.

CERTIFICATIONS

Offensive Cybersecurity Bootcamp, Semicolon Academy.   *Mar 2024*
Certificate in Cybersecurity Essentials, Cisco Academy.   *Nov – Dec 2018*

SKILLS

Xamarin   .NET/.Net Core   Entity Framework   Angular   Continuous Integration/Deployment (CI/CD) Microservices   ReactJS   VueJS   JS/TS/JQuery   Ionic   NodeJS   MSSQL/MySQL   MongoDB   MVC MVVM   OOP   PHP Laravel/Zend   Firebase   Software Development   Agile Methodologies   Azure   Scrum

EDUCATION

Bachelor of Science in Business Computer, Lebanese University.   *2017 – Present*
