Abed.sharif.9@gmail.com

Passionate Developer with a focus on Flutter, HTML, CSS, and JavaScript. Dedicated to mastering Flutter for innovative mobile app development while continuously enhancing skills in web technologies.

## PROFESSIONAL EXPERIENCE

### Software Developer

#### Oryx Dental Software (2022-Present)

- Developed tools using C#, Python, and VB.NET to facilitate migration of medical images and documents to Oryx's cloud-based software, improving accessibility and user experience.
- Integrated with APIs to enhance software functionality and streamline data management.
- Proficiently utilized MySQL Workbench and Microsoft SSMS to execute and optimize SQL queries, ensuring compatibility with code requirements for efficient migration.

### Cross-platform Developer

#### BMB Group (2022-2022)

- Developed cross-platform mobile applications using Xamarin. Android with code sharing across iOS and Windows Phone.
- Designed user interfaces, implemented data models and business logic, integrated with APIs, and tested applications thoroughly.
- Successfully released applications to the Google Play Store.

### Part-time Developer

#### Protech (2021-2022)

- Developed and maintained a Xamarin Android application.
- Designed databases and utilized web development frameworks.

### Computer Science Intern

#### Ministry of Finance (2020)

- Gained experience in web development and database management.

## EDUCATION

**Bachelor of Science in Computer Science**,  
Modern University of Business and Science (MUBS),  
Beirut, Lebanon

## Certification

CCNA1, CCNA2

## SKILLS

### Technical Skills:
